

# DOLLS

## STEPS:

1. Cut out.
2. Place fabric right sides together.
3. Starting from the upper side of the head, sew the front and back together, with  $\frac{1}{4}$  inch seam allowance, leaving about 4 inches of the head open so you can stuff it.
4. With the tip of the scissors, clip corners around base of neck, underarms and crotch as needed to allow the fabric room to turn and take the appropriate shape.
5. Turn it right side out.
6. Stuff the doll with POLY-FIL, batting scraps or other appropriate material.
7. Sew head shut by hand with needle and thread.
8. Dress the doll.

Note: Faces should be painted before you sew them but, if not, please DO NOT use buttons for their eyes. Buttons ARE a choking hazard.
