### OUR SURGERY CENTER'S ADVANCE DIRECTIVE POLICY

The majority of procedures performed at the Surgery Center are considered to be minimal risk. Of course, no surgery is without risk. You and your surgeon will have discussed the specifics of your procedure, the risks associated with your procedure, the expected recovery and the care after your surgery.

It is the policy of the Surgery Center, regardless of the contents of any advance directive or instructions from a healthcare surrogate or attorney in fact, that if an adverse event occurs during your treatment at the Surgery Center, the personnel at the Surgery Center will initiate resuscitative or other stabilizing measures and transfer you at once to an acute care hospital for further evaluation. At the acute care hospital further treatment or withdrawal of treatment measures already begun will be ordered in accordance with your wishes, advance directive, or health care power of attorney.
