Mouse

Selection: Left click, or band-box
Shift + click adds to the current selection
Ctrl + click removes from the current selection

Drag: Left-click & hold on an object, drag it

Drag mods: When dragging, Shift will keep the drag vertical, horizontal, or 45 degrees
When dragging, Ctrl means "don't grid / object snap"
When sizing, Shift disables aspect ratio locking
When sizing, Control means "resize from center"

Zoom: Mouse wheel (zooms relative to the cursor)
View drag: Middle-mouse click and drag

Keyboard

Esc Switch back to the selection tool, or end the current line drawing
View drag: Hold space-bar + left-click & drag
(useful for Mac, or users without a mouse wheel)
Move: Arrow keys move the current selection
Shift + arrow moves in large steps
Ctrl + arrow moves in small steps

Note: if the edit window has the keyboard focus, the keys L, R, T, B will align left, right, top, and bottom, C aligns vertical centers, E aligns horizontal centers, P moves the selection to page center, and H and V are horizontal and vertical flip.
