Short Environmental Assessment Form Part 1 - Project Information

Instructions for Completing

Part 1 – Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 – Project and Sponsor Information								
Local Law to Opt-Out of Real Property Tax Law Section 487 - Local Law Adoption by the To	own of Board of the Town of L	ong Lake	9					
Name of Action or Project:								
Local Law to Opt-Out of Real Property Tax Law Section 487								
Project Location (describe, and attach a location map):								
Town wide								
Brief Description of Proposed Action:								
Currently, New York Real Property Tax Law (RPTL) §487 exempts real property which includes solar and wind energy system, farm waste energy system, micro-hydroelectric energy system, fuel cell electric generating system, micro-combined heat and power generating equipment system, electric energy storage equipment and electric energy storage system, or fuel-flexible linear generator electric generating system, from taxation to the extent of any increase in the value thereof by reason of the inclusion of system for a period of fifteen years. RPTL §487 also provides municipalities with the option to opt-out of the RPTL §487 tax exemption by enacting a local law stating that no exemption under RPTL §487 shall be applicable within its jurisdiction. The Town Board of the Town of Long Lake finds that it is in the best interest of the Town to tax property value increases related to real property potentially subject to the exemption granted under RPTL §487 at its full assessed value. This proposed local law does not affect the RPTL §487-a provisions for real property tax exemptions Energy conservation measures added to a one-, two-, three-, or four-family home that qualify under RPTL §487-a.								
Name of Applicant or Sponsor: Telephone: 518-624-3001

City/PO: State: Zip C			ode:					
Does the proposed action only involve the legislative adoption of a plan, local law, ordinance, administrative rule, or regulation?				YES				
If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that								
may be affected in the municipality and proceed to Part 2. If no, continue to question 2.								
2. Does the proposed action require a permit, approval or funding from any other government Agency? If Yes, list agency(s) name and permit or approval:				YES				
11 Fes, list agency(s) hame and permit of approval.								
3. a. Total acreage of the site of the proposed action? acres								
b. Total acreage to be physically disturbed? c. Total acreage (project site and any contiguous properties) owned								
or controlled by the applicant or project sponsor?								
4. Check all land uses that occur on, are adjoining or near the proposed action:								
☐ Urban ☐ Rural (non-agriculture) ☐ Industrial ☐ Commercial ☐ Residential (suburban)								
Forest Agriculture Aquatic Other(Specify):								
Parkland								

5.	Is the proposed action,	NO	YES	N/A
	a. A permitted use under the zoning regulations?			
	b. Consistent with the adopted comprehensive plan?			
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?			NO	YES
0.	is the proposed denote consistent with the prodominant character of the existing out of natural fundscape.			
7.	Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area?		NO	YES
If Y	es, identify:			
8.	a. Will the proposed action result in a substantial increase in traffic above present levels?		NO	YES
	b. Are public transportation services available at or near the site of the proposed action?			
	c. Are any pedestrian accommodations or bicycle routes available on or near the site of the proposed			\perp
0	action? Does the proposed action meet or exceed the state energy code requirements?		Ш	Ш
9.			NO	YES
If tl	ne proposed action will exceed requirements, describe design features and technologies:			
			Ш	Ш
-				
10.	Will the proposed action connect to an existing public/private water supply?		NO	YES
	If No, describe method for providing potable water:			
			Ш	
11.	Will the proposed action connect to existing wastewater utilities?		NO	YES
	If No, describe method for providing wastewater treatment:			
12	a. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district	t	NO	YES
which is listed on the National or State Register of Historic Places, or that has been determined by the				
	nmissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the te Register of Historic Places?			
				П
arcl	b. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for naeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?			
13.	a. Does any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or other waterbodies regulated by a federal, state or local agency?		NO	YES
6	b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody?			
If Y	ves, identify the wetland or waterbody and extent of alterations in square feet or acres:			
-				

14. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check all that apply:				
☐ Shoreline ☐ Forest ☐ Agricultural/grasslands ☐ Early mid-successional				
☐ Wetland ☐ Urban ☐ Suburban				
15. Does the site of the proposed action contain any species of animal, or associated habitats, listed by the State or Federal government as threatened or endangered?		YES		
16. Is the project site located in the 100-year flood plan?		YES		
17. Will the proposed action create storm water discharge, either from point or non-point sources?	NO	YES		
If Yes,				
a. Will storm water discharges flow to adjacent properties?				
b. Will storm water discharges be directed to established conveyance systems (runoff and storm drains)? If Yes, briefly describe:				
18. Does the proposed action include construction or other activities that would result in the impoundment of water	NO	YES		
or other liquids (e.g., retention pond, waste lagoon, dam)? If Yes, explain the purpose and size of the impoundment:				
,				
19. Has the site of the proposed action or an adjoining property been the location of an active or closed solid waste management facility?		YES		
If Yes, describe:				
		Ш		
	NO	VIDO		
20. Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or completed) for hazardous waste?		YES		
If Yes, describe:				
I CERTIFY THAT THE INFORMATION PROVIDED ABOVE IS TRUE AND ACCURATE TO THE BEST OF MY KNOWLEDGE

Narrative for legislative action to accompany SEAF Part One Project Description

The New York Assessor Manual at https://www.tax.ny.gov/research/property/assess/manuals/vol4/pt1/sec4 01/sec487.htm

Provides that:

"Real property that contains a solar energy, wind energy, farm waste energy, micro-hydroelectric energy, fuel cell electric generating, micro-combined heat and power generating equipment, or an electric energy storage system approved by the State Energy Research and Development Authority is exempt from taxation for a period of 15 years to the extent of any increase in assessed value due to the system. Such property is liable for special ad valorem levies and special assessments. The exemption as reenacted in 1990 is subject to <u>local option</u>.

Additionally, real property, comprising of or including an eligible energy system, that is owned or controlled by New York State or a New York State department, agency or public authority where New York State or the New York State department, agency, or public authority has agreed in writing with the energy system owner or operator to purchase the produced energy or the environmental credits or attributes created by virtue of the system's operation is permanently exempt from taxation, special ad valorem levies and special assessments, and the owner of such property shall not be subject to any requirement to enter in an agreement for payments in lieu of taxes. This exemption is subject to <u>local option</u>."

Scores of municipalities have opted out of this exemption on account of community needs with respect to maintaining a healthy tax base and a sense of equity with respect to taxation of income producing commercial or industrial uses of land. The removal of a tax exemption may tend to discourage projects of marginal economic viability within the Town. See https://www.tax.ny.gov/research/property/legal/localop/487opt.htm for a listing of municipalities that have opted out the RPTL Section 487.
