# The Results Company

## Passion

In elementary school, our lead investigator knew he wanted to be a private investigator. Joshua Gray followed his dream to operate a surveillance and investigation company driven by quality. Every investigation is a priority and every investigator is paid above industry standards to ensure the best results.

## Proven Track Record of Success

Most companies turn in reports with no results, no activity and limited information, but we strive to get you solid information with every case. Others submit large invoices, whether video results are obtained or not. We endeavor to give you useful information that helps you make the right decision with every investigation.

## History

Joshua worked for a nationwide company for several years, and consistently made the top investigator list. He became frustrated with the strong focus on 'billable hours' rather than quality results. In 2002, NSI Surveillance and Investigation was formed to disrupt the industry, to concentrate on results and meet the growing demand for quality private investigations.

## Mission Statement

NSI Surveillance and Investigation will conduct each investigation with the utmost integrity, thoroughness and determination, to supply clients with the results they request, and to maintain the highest level of quality in the industry.

## Summer Snowmobiling

*By Joshua Gray, PI*

This picture was taken during surveillance several years ago. The investigator followed a workers' compensation claimant, to a lake, several hours from his house. The claimant was pulling a snowmobile on a trailer. After arriving at a lake, the investigator realized the man was going to participate in a peculiar racing event. This race involves a snowmobile racer starting the race on a sandy beach, accelerating enough to skim the snowmobile over water and then race in circles on a marked course in the water. It was a two day event and so the

investigator camped in his surveillance vehicle. By the end of the event, the claimant had won first place and the client had all the proof needed to prove insurance fraud. While most cases result in good evidence, this case remains one of the most memorable.

*"I am VERY happy about these results. Once I have the DVD I can send to my defense counsel and have them look at it." -*

*"I've been spreading the word about your work here in the ... office. My manager was very pleased with the results you got on my last two referrals. I think you might start seeing more referrals from our office." - Donald*

*"The decision came in yesterday which CUT OFF HIS BENEFITS!!!!!!!!!!!!!! Yeah Josh!!! Excellent work!!!!!!!!!!!!!" - Cynthia*

*"Wow Josh, very thorough thank you. I can't wait to get the video as the client is not returning to work" - Matthew*

*"Thanks for the great work!!! I look forward to the photos and video." - Karen*

*"Our attorney told me that things went well with the testimony - it seems that this was damaging to the claimant's credibility which is what I hoped for, since he gave testimony and denied climbing that ladder at the prior hearing - too bad he lied. I sent all the video to our IME consultant and he reduced the disability from total to a moderate 50% disability level from viewing those videos. The case is continued for the claimant's rebuttal testimony, however I think that the video and your testimony speaks louder than the claimant will be able to rebut. We shall not see the outcome of this until likely December or possibly January. The customer did convey to me that they felt this was excellent surveillance work and I agree - thanks for all your work efforts on this case. If it makes the customer happy, that's a good thing!" - Deborah*

*"I'm very pleased with the way things turned out. Although I don't think he deserves a penny, we used the results of your surveillance, as well as a few other things, to negotiate a good settlement. Thanks again for all your hard work you've put into this case." - Sarah*

*"Thank you..., I appreciate your diligence with this assignment..." - Matt*

*"You don't know how happy I am to learn that he was moving a refrigerator. I'm soooooo totally excited that if you were here I'd give you a big hug!... If it IS him, total slam dunk for me! He's saying he has RSD and cannot use his left arm at all and has "severe" pain to very light palpation of his shoulder." - Sarah*

*"Thanks again as this is solid and great footage which we can use to either establish a case of fraud and or deflate any possible permanency settlement." - Russell*

It's a breath of fresh air actually working with an investigator that really seems to care about what they do and strive for positive results.
