## Notes to the Financial Statements

### 1. Summary of Significant Accounting Policies and Going Concern

#### A. Accounting Practices

The accompanying financial statements have been prepared in conformity with accounting practices prescribed and permitted by the State of Georgia Department of Insurance (DOI).

The DOI recognizes only statutory accounting practices prescribed or permitted by the State of Georgia for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the State of Georgia Insurance Law. The State of Georgia prescribes the use of the National Association of Insurance Commissioners' Accounting Practices and Procedures Manual (NAIC SAP) for use in statutory reporting.

The Company's net (loss) and capital and surplus as stated on a NAIC SAP basis and on the basis of practices prescribed or permitted by the State of Georgia are the same as of December 31, 2021 and December 31, 2022.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Georgia is shown below:

#### B. Use of Estimates in the Preparation of the Financial Statements

The accompanying financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

#### C. Accounting Policy

The Company's revenue is derived primarily from member health-care premium payments. The premiums are based upon the actuarial determined cost of services and are recognized as revenue when earned.

Member health care premiums are billed and due during the month prior to the effective month of coverage. Premiums receivable is comprised of member premiums that have been billed but not yet received. Unearned premiums represent the member premiums billed prior to the period for which benefit coverages are to be delivered and any prepaid member premiums.

Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred.

In addition, the Company has the following accounting policies:

- (1) Short term investments are stated at amortized cost.
- (2) Bonds are stated at amortized cost in the accompanying financial statements.  
Bonds that are designated NAIC designation 1 or 2 are reported at amortized cost, all other bonds are reported at the lower of amortized cost or fair value. The Company did not have any Mandatory Convertible Securities or SVO-identified investments.

- (11) Liabilities for losses and loss/claim adjustment expenses - None
- (12) Changes in capitalization policy - None
- (13) Pharmacy rebate receivables are based on reports received from the Company's pharmacy benefit manager and estimates are prepared using historical trends.

**Notes to the Financial Statements**

**1. Summary of Significant Accounting Policies and Going Concern (Continued)**

D. Going Concern

The reporting of a 2023 Premium Deficiency Reserve in the December 31, 2022, filing resulted in a deficit equity position. Friday Health Plans of Georgia, Inc., needs to raise additional capital to address the deficit reported at December 31, 2022, and to support future operations. There is doubt of the Company's ability to continue as a "going concern" without raising additional capital. The Company's management is actively engaged with the Board of Directors and outside advisors to address capital needs.

### 20. Fair Value Measurements

#### A. Fair Value Measurement

The Company's financial assets and liabilities carried at fair value have been classified, for disclosure purposes, based on a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The hierarchy gives the highest priority to fair values determined using unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to fair values determined using unobservable inputs (Level 3). An asset's or liability's classification is determined based on the lowest level input that is significant to its measurement. For example, a Level 3 fair value measurement may include inputs that are both observable (Levels 1 and 2) and unobservable (Level 3). The levels of the fair value hierarchy are as follows:

- Level 1: Inputs are unadjusted, quoted prices for identical assets or liabilities in active markets at the measurement date.
- Level 2: Inputs are other than quoted prices included in level 1 that are observable for the asset or liability through corroboration with market data at the measurement date.
- Level 3: Inputs are unobservable and reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date.

Fair value of actively traded fixed-income and equity securities is based on quoted market prices. Fair value of inactive traded fixed-income securities is based on quoted market prices of identical or similar securities based on observable inputs like interest rates using a market valuation approach is generally classified as Level 2. Investments measured based on the practical expedient being net asset value (NAV), based on the NAV of the fund as provided for in the audited financial statements and other fund reporting, are generally classified as Level 3.
