

REBOUND AQ

Safety Data Sheet (SDS)

Prepared in accordance with OSHA Hazard Communication Standard 29 CFR 1910.1200

OSHA 29 CFR 1910.1200 | GHS REVIEWED | INDUSTRIAL USE ONLY

DOCUMENT CONTROL

SDS Number: SRS-SDS-RAQ-001
Product Code: RAQ-100
Revision: 1.0
Issue Date: June 29, 2026
Supersedes: Original MSDS dated April 5, 2012

MANUFACTURER / EMERGENCY CONTACT

Source Rock Supply
64 S. 2nd Street
Sanger, TX 76266
United States
Phone: (940) 367-4745
Email: sourcerocksupply@gmail.com

Product description: Rebound AQ is a proprietary aqueous performance blend for industrial oil separation, oil desorption, dispersion, cleaning, and environmental remediation applications.

55-Gallon Drum

275-Gallon IBC Tote

Bulk Delivery

CONFIDENTIAL TRADE SECRET INFORMATION - Specific chemical identities and exact percentages may be withheld as permitted by applicable regulations.

| 1. IDENTIFICATION | |
|--|--|
| Item | Information |
| Product identifier | Rebound AQ |
| Other means of identification | Rebound AQ; proprietary aqueous performance blend |
| SDS number | SRS-SDS-RAQ-001 |
| Product code | RAQ-100 |
| Recommended use | For industrial and commercial use only. Biodegradable oil desorber, separator, and dispersant for oil separation, cleaning, and environmental remediation applications. |
| Recommended restrictions | None known. Use only as directed. Not for consumer use. |
| Manufacturer | Source Rock Supply 64 S. 2nd Street, Sanger, TX 76266, United States Phone: (940) 367-4745 Email: sourcerocksupply@gmail.com |
| Emergency contact | Source Rock Supply - (940) 367-4745 |
| 2. HAZARD(S) IDENTIFICATION | |
| Hazard Class | Category / Status |
| Physical hazards | Not classified. |
| Health hazards | Not classified based on available information. |
| Environmental hazards | Not classified based on available information. |
| OSHA defined hazards | Not classified. |
| <p>No GHS Pictogram Required</p> <p>HMIS: Health 1 Flammability 0 Physical Hazard 0 NFPA: Health 1 Flammability 0 Instability 0</p> | <p>Signal word: None</p> <p>Hazard statement: Not classified as hazardous under OSHA Hazard Communication Standard 29 CFR 1910.1200 based on available information. Hazards not otherwise classified (HNOC): None known.</p> <p>Supplemental information: Product may cause temporary mild irritation with prolonged or unnecessary contact. Use good industrial hygiene practices.</p> |
| Precautionary Statement | Required Action |
| Prevention | Avoid unnecessary eye and prolonged skin contact. Wash hands after handling. Use appropriate PPE based on task conditions. |
| Response - If in eyes | Flush cautiously with clean water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. Get medical advice if irritation persists. |
| Response - If on skin | Wash affected area with soap and water. Remove contaminated clothing and wash before reuse. |
| Response - If inhaled | Move person to fresh air if symptoms are experienced. |
| Response - If swallowed | Rinse mouth. Drink water to dilute. Do not induce vomiting unless directed by medical personnel. Get medical advice if discomfort persists. |
| Storage | Keep container tightly closed when not in use. Store in a cool, dry location away from incompatible materials. |
| Disposal | Dispose of contents and container in accordance with local, regional, national, and international regulations. |

3. COMPOSITION / INFORMATION ON INGREDIENTS

Mixture. Specific chemical identity and exact concentration may be withheld as confidential business information and trade secrets. Information necessary for emergency medical treatment will be made available to qualified medical professionals as required.

| Chemical Name / Description | CAS No. | Concentration | Classification / Function |
|---------------------------------------|--------------|---------------|---|
| Proprietary aqueous performance blend | Trade Secret | 90 - 100% | Oil desorber, separator, emulsifier, and dispersant blend |

**The exact chemical identity and/or percentage of composition has been withheld as a trade secret.*

4. FIRST-AID MEASURES

| Route | First-Aid Measure |
|---|--|
| Inhalation | Move to fresh air if symptoms are experienced. Get medical advice if symptoms develop or persist. |
| Skin contact | Wash affected area thoroughly with soap and water. Remove contaminated clothing and wash before reuse. Get medical advice if irritation persists. |
| Eye contact | Flush eyes with clean water for at least 15 minutes. Remove contact lenses if present and easy to do. Continue rinsing. Get medical advice if irritation persists. |
| Ingestion | Rinse mouth. Drink water to dilute. Do not induce vomiting unless directed by medical personnel. Get medical advice if discomfort develops or persists. |
| Most important symptoms/effects | May cause temporary mild eye irritation, mild skin irritation after prolonged contact, or temporary gastrointestinal discomfort if swallowed. |
| Immediate medical attention / treatment | Treat symptomatically. No specific antidote known. |
| General information | Ensure that medical personnel are aware of the material involved and take precautions appropriate for the exposure scenario. |

5. FIRE-FIGHTING MEASURES

| Item | Information |
|--|--|
| Suitable extinguishing media | Use extinguishing media appropriate for the surrounding fire. |
| Unsuitable extinguishing media | None known. |
| Flash point | Approximately 331 F (166 C), open cup. |
| Specific hazards arising from the chemical | Product is not classified as flammable under normal storage and handling conditions. Thermal decomposition may produce carbon oxides and other combustion by-products. |
| Special protective equipment and precautions | Wear self-contained breathing apparatus and full protective clothing when fighting fires involving chemicals. |
| General fire hazards | No unusual fire or explosion hazards are expected under normal conditions. |

6. ACCIDENTAL RELEASE MEASURES

| Item | Information |
|--|---|
| Personal precautions, protective equipment, and emergency procedures | Keep unnecessary personnel away. Use appropriate protective equipment for large releases or prolonged contact. Avoid unnecessary eye and skin contact. |
| Methods and materials for containment and cleanup | Contain spill if possible. Absorb with inert material if necessary. Flush residual material with water where permitted and practical. Never return spilled material to original containers for reuse. |
| Environmental precautions | Prevent unnecessary discharge into storm drains, waterways, or natural surface waters where practical. |

7. HANDLING AND STORAGE

| Item | Information |
|-------------------------------|---|
| Precautions for safe handling | Avoid unnecessary contact with eyes. Avoid prolonged or repeated skin contact. Wash hands thoroughly after handling. Do not eat, drink, or smoke while using this product. Observe good industrial hygiene practices. |
| Conditions for safe storage | Store in original, tightly closed container. Store in a cool, dry, well-ventilated location. Recommended storage range: 60 - 130 F (16 - 54 C). Protect from freezing and excessive heat. |
| Oilfield storage guidance | Keep drums, totes, and bulk containers closed when not in use. Protect containers from physical damage and prevent uncontrolled release to the environment. |
| Incompatible materials | Keep away from strong oxidizing agents. |

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

| Control / PPE | Information |
|----------------------------------|---|
| Occupational exposure limits | No occupational exposure limits have been established for this proprietary mixture. |
| Biological limit values | No biological exposure limits noted for the ingredient(s). |
| Appropriate engineering controls | Normal workplace ventilation is generally adequate. Eye wash facilities should be available where bulk handling occurs. |
| General PPE guidance | Users should perform a task-based risk assessment to determine appropriate PPE. |
| Eye/face protection | Safety glasses with side shields are recommended during handling. |
| Hand protection | Chemical-resistant gloves are recommended for prolonged or repeated exposure. |
| Other skin protection | Normal work clothing is generally sufficient. Use chemical-resistant clothing where splash potential exists. |
| Respiratory protection | Not normally required under ordinary conditions of use. Use appropriate respiratory protection if mist or aerosol is generated and ventilation is inadequate. |
| General hygiene considerations | Wash hands after handling and before eating, drinking, or smoking. Remove and wash contaminated clothing before reuse. |

9. PHYSICAL AND CHEMICAL PROPERTIES

| Property | Value | Property | Value |
|-----------------------------|----------------------------------|---------------------------|----------------------------------|
| Physical state | Liquid | Appearance | Clear to colorless liquid |
| Form | Liquid | Color | Colorless |
| Odor | None / not significant | Odor threshold | Not established |
| pH | Approximately 6.85 | Melting/freezing point | Not established |
| Initial boiling point/range | Not established | Flash point | 331 F (166 C), open cup |
| Evaporation rate | Not established | Flammability (solid, gas) | Not applicable |
| Lower explosive limit | Not applicable / not established | Upper explosive limit | Not applicable / not established |
| Vapor pressure | Not established | Vapor density | Not established |
| Specific gravity | Approximately 1.02 | Solubility in water | Very soluble |
| Partition coefficient | Not established | Auto-ignition temperature | Not established |
| Decomposition temperature | Not established | Viscosity | Not established |
| Percent solids by weight | 0% | VOC content | Not established |
| Explosive properties | Not explosive | Oxidizing properties | Not oxidizing |

10. STABILITY AND REACTIVITY

| Item | Information |
|------------------------------------|--|
| Reactivity | The product is stable and non-reactive under normal conditions of use, storage, and transport. |
| Chemical stability | Stable under recommended storage conditions. |
| Possibility of hazardous reactions | Hazardous polymerization will not occur. |
| Conditions to avoid | Freezing, excessive heat, and contact with incompatible materials. |
| Incompatible materials | Strong oxidizing agents. |
| Hazardous decomposition products | No hazardous decomposition products are expected under normal use. Thermal decomposition may produce carbon oxides and other combustion by-products. |

11. TOXICOLOGICAL INFORMATION

| Topic | Information |
|-----------------------------------|--|
| Likely routes of exposure | Eye contact, skin contact, inhalation under misting or aerosol conditions, and accidental ingestion. |
| Inhalation | No significant inhalation hazard is expected under normal use. If mist or vapor is generated, move to fresh air if discomfort occurs. |
| Skin contact | Not expected to cause significant irritation under normal handling conditions. Prolonged or repeated contact may cause mild irritation in sensitive individuals. |
| Eye contact | May cause temporary mild irritation. |
| Ingestion | Not intended for ingestion. Accidental ingestion may cause temporary gastrointestinal discomfort. |
| Acute toxicity | No acute toxicity data has been established for this proprietary mixture. |
| Skin corrosion/irritation | Not classified based on available information. |
| Serious eye damage/eye irritation | Not classified based on available information. |
| Respiratory sensitization | Not established. |
| Skin sensitization | Not established. |
| Germ cell mutagenicity | No data available. |
| Carcinogenicity | This product does not contain ingredients known to be carcinogenic by OSHA, ACGIH, NTP, or IARC based on available supplier information. |
| Reproductive toxicity | No data available. |
| STOT - single exposure | Not classified. |
| STOT - repeated exposure | Not classified. |
| Aspiration hazard | Not classified. |

12. ECOLOGICAL INFORMATION

| Item | Information |
|-------------------------------|--|
| Ecotoxicity | No specific ecotoxicity data has been established for this proprietary mixture. |
| Persistence and degradability | Supplier documentation reports the product as biodegradable within 28 days. Supporting test data should be retained for regulatory or customer certification purposes. |
| Bioaccumulative potential | Not established. |
| Mobility in soil | Product is water soluble and may be mobile in soil or water. |
| Other adverse effects | Avoid unnecessary release into storm drains, surface waters, or natural waterways. |

13. DISPOSAL CONSIDERATIONS

| Item | Information |
|---------------------------------------|---|
| Disposal instructions | Dispose of unused product, residues, and contaminated materials in accordance with applicable federal, state, and local regulations. |
| Waste from residues / unused products | This product is not expected to be classified as hazardous waste under normal use conditions; however, waste classification is the responsibility of the generator. |
| Contaminated packaging | Empty containers may retain product residue. Rinse, recycle, or dispose of containers according to local requirements. |
| RCRA hazard class | None known based on available information. |

14. TRANSPORT INFORMATION

| Mode | UN Number | Proper Shipping Name | Class | Packing Group | Environmental Hazards |
|------|---------------|----------------------|---------------|----------------|-----------------------|
| DOT | Not regulated | Rebound AQ | Not regulated | Not applicable | Not established |
| IATA | Not regulated | Rebound AQ | Not regulated | Not applicable | Not established |
| IMDG | Not regulated | Rebound AQ | Not regulated | Not applicable | Not established |

Special precautions for user: Read safety instructions, SDS, and emergency procedures before handling. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code: Not established.

15. REGULATORY INFORMATION

Regulatory information is based on available supplier documentation for the proprietary mixture and should be reviewed against final formulation and current regulatory inventories before distribution.

| Regulatory Topic | Status |
|--|---|
| Toxic Substances Control Act (TSCA) | Not established based on available supplier documentation. |
| CERCLA Hazardous Substance List (40 CFR 302.4) | Not established / not listed based on available information. |
| SARA Title III | None known based on available information. |
| SARA 311/312 Hazard Categories | Not classified based on available information. |
| SARA 313 (TRI reporting) | No reportable ingredients known based on available information. |
| State regulations | No state-specific regulatory listings known based on available information. |
| International regulations | Not established. |

16. OTHER INFORMATION

| Item | Information | |
|---------------------------------------|--|--|
| Issue date | June 29, 2026 | |
| Revision date | June 29, 2026 | |
| Version | 1.0 | |
| Material ID / Product Code | RAQ-100 | |
| SDS number | SRS-SDS-RAQ-001 | |
| Supersedes | Original MSDS dated April 5, 2012 | |
| HMIS ratings | Health: 1 Flammability: 0 Physical Hazard: 0 | |
| NFPA ratings | Health: 1 Flammability: 0 Instability: 0 | |
| Revision information | Initial Source Rock Supply issue for Rebound AQ. | |
| Revision | Date | Description of Change |
| 1.0 | 06/29/2026 | Initial Source Rock Supply issue. Converted original MSDS content to a modern 16-section SDS format. |
| Prepared By | Approved By | Issue Date |
| Source Rock Supply Technical Services | Quality Assurance Manager | June 29, 2026 |

Disclaimer: Source Rock Supply cannot anticipate all conditions under which this information and its product, or products of other manufacturers in combination with this product, may be used. It is the user's responsibility to ensure safe conditions for handling, storage, transportation, use, and disposal of the product, and to assume liability for loss, injury, damage, or expense due to improper use. The information in this Safety Data Sheet was prepared based on available supplier documentation, product information, and professional judgment and is believed to be accurate as of the issue date. No warranties, either expressed or implied, are made regarding the accuracy or completeness of the data contained herein. This information is offered for consideration and investigation only. Users should satisfy themselves that they have all current data relevant to their particular use and comply with all applicable regulations.

DOCUMENT CONTROL NOTICE - This SDS should be reviewed whenever new formulation, hazard, toxicological, ecological, or regulatory information becomes available.
