Welcome to Operation Santa Paws

This coloring book is a small gift from our Spirit Cove family to you, a moment of calm, comfort, and joy delivered straight from our gentle Newfoundland therapy dogs.

Every year, Operation Santa Paws spreads kindness across the country through simple acts of hope.

Since our therapy dogs can't be everywhere at once, this book was created as a way to share their healing presence with anyone who may need a lift.

Your gift card includes a QR code that lets you download this book for free, no cost, no sign-up, no expectations.

If it brings you comfort, we hope you'll pass it along to someone else who might need a smile, too.

Inside these pages, you'll find cartoon illustrations inspired by our National Newfie Therapy Team, real dogs who have spent countless hours training and visiting hospitals, fire stations, schools, veterans' programs, and communities recovering from hurricanes and national disasters.

They are big, gentle heroes who change lives every day.

If you'd like to gift a printed copy to someone special, this book is also available on Amazon. 100% of all proceeds support

Spirit Cove's animal-assisted therapy programs, helping people heal from stress, trauma, illness, and loss.

Wherever you are and whatever you're carrying today, we hope these Newfies bring you a moment of peace, a reminder that kindness heals, hope has paws, and no one should ever have to heal alone.

Wishing You Comfort, Community and Compassion

Lisa and Sarah
