## Becky Lecker Hope Through Christ Fundraiser to benefit Luca Patterson

The History of Hope Through Christ

We are a faith-based family, dedicated to serving others in need, in our own communities. Since 2003, we have been blessed by your love and support. You have all graciously and generously donated to us and have kept us above water through two transplants and endless hospital visits. We love and thank all of you from the bottom of our hearts. Since my transplants, we have supported others in need to reduce the financial stress that comes with health conditions. Thank you for coming alongside us and being a HUGE part of the journey. – Much Love, Becky

**This year our recipient is Luca Patterson**

Meet Luca, an extraordinary 5-year-old whose infectious smile and boundless curiosity brighten the lives of everyone around him. Luca faces the greatest challenge of his young life—a rare and aggressive form of leukemia known as Acute Myeloid Leukemia. Despite the daunting road ahead, Luca's remarkable spirit continues to shine. His love for cars, trains, and rocket-ships is as strong as ever, and his laughter remains a source of hope and joy for all who know him.

Luca's pure heart and unwavering resilience stand as a testament to the incredible strength that resides within this little warrior. As he embarks on this difficult journey, our community is coming together to support Luca and his loving parents in their time of greatest need. Every prayer, message of encouragement, and donation—no matter the size—helps lighten the burden on this remarkable family and gives Luca the strength to keep fighting.

We invite you to join us in surrounding Luca with love, hope, and support. Your generosity will not only help cover the rising medical expenses, but also, remind Luca and his family that they are not alone in this fight. Together, we can ensure that Luca receives the best possible care and can focus all his energy on what matters most—healing and returning to being the vivacious, curious little boy we all know and love.
