

FALL/WINTER 2020

CONQUER THE COLD WITH
ABSOLUTE CONFIDENCE
ABSOLUTE COMFORT
ABSOLUTE WARMTH

2020

Designed right here in the Great White North, the Absolute Canada lineup includes a wide selection of winter boots. As a family-owned and operated business with more than 30 years of experience in footwear, we know how important it is to keep every member of the family dry, warm and comfortable.

We recognize the importance of comfort and safety when trekking through tough winters. After experiencing first-hand getting stranded in a forest on a cold winter's night, pushing through deep snow, we realized how crucial it is to be equipped with footwear that you can trust.

We're committed to providing you boots built for battling the elements - anywhere and anytime, day or night - to conquer winter with absolute confidence.

STAY BRIGHT AT NIGHT

Light up your winter with our collection of LED footwear. Featuring unique lighting systems constructed right into each boot, the Northern Lights™ collection provides active nighttime visibility in a variety of styles to keep kids safe at night.

Take control of your family's safety this winter.

ULTRALIGHT TECHNOLOGY

PROPULSION RUBBER™

With our ultralight Propulsion Rubber™, we've raised the bar by providing a superior combination of warmth and comfort as well as proving that boots don't need to be heavy in order to keep your feet warm. Our collection of Propulsion Rubber™ boots allow you to stay active without tiring out your feet!

KIDS

LIGHT UP YOUR WINTER

Have fun while staying dry and comfortable all winter long with boots built for cold weather. Our kids collection provides full waterproof coverage in snow and on any wet, icy surface so kids can enjoy their time outside.

Our Northern Lights collection adds a whole new experience to winter fun with LED lights that glow wherever they go. These boots can brighten any gloomy winter day and ensure kids stay warm and safe at night.

WATERPROOF TECHNOLOGIES

Rain, mud, creeks, rivers, snow - all these obstacles are out to stop you from staying dry. Here at Absolute Canada, we use a range of waterproof systems to keep your feet water-free as you tackle Mother Nature.

Waterproof Membrane

A 100% waterproof bootie laminated to the inside of your boot. The protective membrane has a high abrasion-resistant lining for maximum wear and comfort.

Seam Sealed

Waterproof material is heat sealed at the stitch line creating a waterproof barrier against outside moisture.

Waterproof Shell

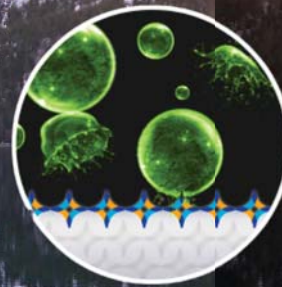

Boots equipped with shells provide full waterproof coverage in snow and on any wet, icy surface.

aegis®

AEGIS® ODOR CONTROL TECHNOLOGY

Keep your boots smelling fresh and clean this winter. When AEGIS® technology comes into contact with microorganisms, their cell membranes are punctured and they can no longer grow or reproduce. You can find AEGIS® anti-microbial spray throughout our Absolute Canada collection.

Long-Lasting

Environmentally Friendly

Breaks the Mold

Less Stink & Staining

Anti-slip pods
for ultimate
wet-ice grip

**HYDRO
STOPPER®**

ANTI-SLIP TECHNOLOGY

Specifically designed for snow, rain, ice and frozen surfaces, Hydrostopper® is a non-slip shoe sole technology engineered in Japan to help you stay on your feet. Proven to work across a variety of landscapes ranging from the Rockies to your everyday snowy commute to work, Hydrostopper® pods incorporate glass fiber technology to provide you with a strong grip on wet, icy surfaces so that you can walk all over winter.

WOMEN

FASHIONABLY WARM

There's no need to trade style for warmth this season. We've carefully designed our women's collection to utilize on-trend materials while using next generation waterproofing technology to ensure your toes stay toasty and dry. Our high quality, thick grain leather keeps moisture out while letting your feet breathe.

Featuring Hydrostopper®, an advanced anti-slip technology, our boots ensure that you'll always stay on top of things while looking and feeling your best.

ARCTICGRIP

WET ICE TECHNOLOGY

Partnering with Vibram®, we're proud to present boots that are specifically engineered with anti-slip pods to keep you from slipping on wet ice. Vibram®'s patented Arctic Grip™ technology has been rigorously tested and is the most advanced cold weather gripping system Vibram® has ever created. Now you can tread everywhere with confidence.

REALTREE EDGE™

The first camo pattern that allows you to blend into your hunting environment at close range, with natural elements arranged in a way to disrupt the human form at a distance.

REALTREE TIMBER™

Combines abstract design with realistic natural elements for remarkable camouflage effectiveness. It adapts seamlessly to waterfowling scenarios, yet is universal enough to work in a variety of hunting situations.

MEN

FULLY EQUIPPED

This year we have enhanced our men's collection by adding Realtree™ camo, offering realistic foliage patterns that allow you to blend into your hunting environment at any range.

We continue to add value to our line through our partnerships with Vibram®, including compounds like Arctic Grip™ and XS Trek™. With our breathable genuine leathers, waterproofing technology, and Heat-Mx™ advanced thermal insulation, you'll be ready for anything Mother Nature can throw at you.
