

## OUR QUALITY POLICY

We have adopted the principle of customer-oriented, socially and environmentally responsible production, open to continuous improvement, and providing services of consistently increasing high quality in accordance with world standards.

In line with a contemporary corporate structure, we aim to increase our positive contributions to both ourselves and society by providing planned training to all of our staff and ensuring continuous improvement.

In accordance with our understanding of quality, we commit to complying with all applicable legal and other requirements.

In line with these objectives and goals, our foremost duties and aims include maximizing unconditional customer satisfaction.
