- * Small, Lightweight and Waterproof
- * LED display for Battery level

Linked to the web portal **LAXPRO**

- * *Real Time Monitoring*
- * *Routes, History, Reports*
- * *Various notifications*
- * *All units on one screen*
- * *False 'fall' cancel button*

Accessories included :

- Charging USB Magnetic cable
- Neoprene pouch, Detachable cord (wearing around the neck)

Technical Specifications :

Model	
Dimensions (LxWxH)	55.9 * 45.9 * 19.0 mm
Weight	56g
Housing	IP67 waterproof
Operating temperature	-20°C to +65°C
Humidity	5% - - 95%
Battery	
Internal battery	Rechargeable Lithium-Ion 1000 mAh
Voltage	500mA (Max)
Cellular	
Frequency	3G : *800/850/900/1900/2100MHz 4G LTE Call Bands: America : 82/84/812
Data support	TCP-SMS
Antenna	Internal cellular antenna
Maximum duration dormancy mode	5 days
Duration of use with frequency at 5min	30 hours
Location Technology	
Voice function	Yes bidirectional voice
GPS location accuracy	2-20 meters
Tracker sensitivity	-165dBm
Acquisition sensitivity	-148dBm
Screen resolution	-128*64
Electrical Specifications	
Operation Voltage	4.35V Internal battery
Color	Black and red SOS button
Accelerometer	Integrated 3-axis accelerometer for motion detection (fall)
Dormance mode	Ultra-economical sleep mode
Other	
Haz Mat Restrictions	RoHS compliant
Standards and certifications	FCC/PTCRB/IC/CE
