
Health & Safety Guidelines

Your comfort and safety are our top priorities. To ensure a smooth, safe, and enjoyable experience for everyone, here are a few important guidelines that follow UK road safety legislation and best practice:

Seatbelts Are Mandatory

All passengers must always wear seatbelts by law when the vehicle is in motion. Please ensure your seatbelt is fastened before we begin our journey.

No Smoking or Vaping

This is a strictly no smoking or vaping vehicle, in line with UK laws prohibiting smoking in commercial and shared vehicles.

Respectful Behaviour

Please avoid any behaviour that may distract the driver or compromise safety.

Luggage & Loose Items

For safety, please keep personal belongings secure and avoid placing loose items on seats that may shift during travel.

Comfort Breaks

We will plan regular stops to stretch legs, use the facilities, and stay refreshed. If you need an unscheduled break, just ask.

Accessibility & Special Requirements

If you have any medical conditions, accessibility needs, or require extra support, please let us know in advance so I can accommodate you comfortably and safely.

First Aid & Emergency Preparedness

A basic first aid kit is available onboard. We are first aid trained, and emergency procedures are in place, just in case. There is also a fire extinguisher in the front passenger well of the car should the unexpected happen.
