

## PayAnywhere Dual Price Display

The sale details screen now shows both cash and credit (Retail) prices. Customers can more easily see the price difference between paying cash versus paying with a credit card.

Mediterranean Chopped Salad x1	\$10.50
Chicken Pesto Panini x2	\$27.30
Cinnamon Honey Latte x1	\$5.25
Subtotal	\$43.05
Tax	\$2.58

Retail Price	Total \$45.63
Pay with Cash	Total \$43.46

- Note, the dual price display will be defaulted ON. If you would like to turn off the dual price display, you can do so in the Payanywhere App or on Payments Hub under Cash Discounting Settings > Display Cash Price.\*

- **Retail theme:** If a merchant is using retail theme the system will apply the discount amount at the individual item level.

Mediterranean Chopped Salad x1	\$10.50	
Chicken Pesto Panini x2	\$27.30	
Cinnamon Honey Latte x1	\$5.25	
Subtotal		\$43.05
Tax		\$2.58
Retail Price		Total \$45.63
Pay with Cash		Total \$43.46

- **Sales Tax:** When customers pay, credit transactions are now taxed on the credit amount, and cash transactions are taxed on the cash amount. This will help you fully reconcile the tax amount collected.
