

SHADOW COUNTRY

Dr. Dan Jonas and his two children, Abby and Michael, pick up their sticks and move to the fictional Appalachian town of Woodsville, Ohio. Unresolved traumas and the guilt of his perceived past crimes have left Dan's life in freefall. The last job he can get is running a mobile health clinic serving an impoverished Syrian migrant community outside of town.

Abby and Michael's lives are no more stable. Their mother, Rachel, passed years ago. Young adult Abby longs to spread her wings and chart her life course, but she feels trapped as the family's only functional member. Twelve year-old Michael is an imaginative loner whose social growth has been stunted due to the family's transient lifestyle. Though the love in the family is strong, looming threats will test their unity. And their lives.

The family's life is upended following the death of one of Dan's patients, a young Syrian woman swept up in the dark underbelly of Woodsville. What's ruled an "accidental overdose" by authorities at first takes on the appearance of murder upon closer inspection by Dan. And when the powers that be attempt a cover-up, Dan takes it upon himself to investigate. This puts him and his family in the crosshairs of sinister forces.

As Dan peels back the layers, his efforts uncover the town's dark history of human trafficking operated by an Aryan drug cartel, "Prime Order," and a shadowy fraternal organization known as "The Birch Society." The criminal conspiracy's roots reach back to the town's inception, and these nefarious groups will stop at nothing to keep their secrets.

John J. ... J. W. ... W. ... Robert

Is it justice that drives Dan to seek the truth or something more personal? Is he willing to risk the fragile unity of his family to find it? And probably his own life? As it turns out, solving the mysteries of Woodsville may bring him peace for his past missteps. And the guilt that swirls around the loss of his wife, Rachel.

His descent into a murder investigation and the innocent nature of the victims trigger painful memories. Dan will face the ghosts of his past as an Israeli soldier during the Gaza War of 2014. We follow him back to that hellscape where the demons he carries with him to this day were born. For Dan, coming to terms with his past is inextricably linked to stopping the crimes occurring before him today.

Abby and Michael are kidnapped when Dan gets too close to the truth behind the murders. Now it's a showdown between Dan and the Prime Order. Unbridled combat is unleashed as Dan draws from the darkness within him to free his children from their captors and save the town of Woodsville from evil.

The fiery clash spares no one as Dan flips the town upside down to deliver justice and save his children. Subsequently, the criminal conspiracy is effectively dismantled, and the murders are solved. In the end, as the town heals, Dan and his family do as well. The sun rises on a new day in Woodsville as those without a voice are freed from their shackles.

Shadow Country is an hour-long, six-episode, crime-drama series in the vein of "True Detective" and "Mare of Easttown" combined with the action and grit of "Walking Tall." The series centers on searching for a killer in the remote Appalachian community of Woodsville, Ohio. A mysterious town that for generations has buried its secrets along with those that could reveal them. Outwardly, the story is a murder mystery. But the actual subject is about a man's struggle to save his soul and his family.
