

Entles Edge Entlebucher Mountain Dogs Puppy Application

At Entles Edge Entlebuchers, we strive to place each of our Entlebucher puppies in a well-suited home where the puppy will meet the owner’s expectations, and the owners will provide a home complementary to the dog’s personality, talents, and skills. To help with this process, please complete this application to formalize your interest in one of our puppies. Acceptance of this form by Entles Edge Entlebuchers will not guarantee you a puppy but certainly does ensure you will be considered for one of our puppies. Please use the additional notes field at the end of the form for additional space when responding to questions.

Entles Edge Entlebucher Mountain Dogs Puppy Application

You have indicated that you are interested in a dog that will primarily be your pet. Do you plan to do any other activities, like pet-assisted therapy, agility, or tryout competitions with your dog? If so, what?

Since you are purchasing this puppy as a pet, do you understand that this animal is not being sold as a breeding quality animal, so you cannot breed it during its lifetime?

We sell our pet puppies on non-breeding contracts with AKC Limited Registration. That means the dog is not to be bred, and their offspring cannot be registered with AKC. Are you willing to accept this type of contract?

Are you on any other breeders' puppy lists? If so, whose? When is that litter due?

Are you or anyone in your household planning on getting another puppy during the next year? If so, please provide details on breed, sex, breeder, and goals for that puppy.

Our Expectations of You

Keeping an Entlebucher Mountain Dog is not inexpensive; there is quality food, veterinary care, stimulating toys, and training. Are you confident that you understand how much this dog will cost you to maintain and that you have the resources to do so?

Yes, I understand this dog’s maintenance costs and am very comfortable that I can afford this dog.

Maybe, but I would like more information about costs and to discuss this further.

No, I am not aware how much this dog’s maintenance costs will be, but I always make it work.

We require all buyers, once their dog is 2 years of age, to perform one set of health tests to screen for the various genetic diseases that Entlebuchers are susceptible to, including x-rays for hip dysplasia, a veterinary patellar luxation exam (just your regular vet- no sedation), and an exam by a board-certified veterinary ophthalmologist for eye problems. These tests can cost upwards of \$500, depending upon your area.

Will you agree to complete this testing for your dog between 24 - 36 months of age?

Do you understand that you must pay for these tests and that our warranty is contingent upon the completion of the above testing by 36 months of age?

Do you agree to provide the test results to us?

How do you feel about neutering or spaying your dog?

*There are also newer procedure options gaining validity and popularity in many areas: Ovary Sparing Spays and Vasectomies. These newer options may help reduce obesity, urinary incontinence, hemangiosarcoma, lymphoma, and bone cancer for your dog while responsibly avoiding unwanted pregnancies. Would you like information on those options?

Lifestyle

Where will your puppy spend most of its day?

Once grown, where/how will your dog spend most of its day?

Where will your puppy/dog spend its nights? (e.g., crated in bedroom, kitchen, garage, outdoor kennel...)

For what periods of a normal day will your puppy/dog be left alone?

The first 16 weeks of your puppy's life are critical. Will you be able to spend more time with your puppy when it first comes home? What arrangements have or must you make to do this?

Do you have any vacations planned that would not allow you to include the puppy? If so, when and what are your plans for leaving him/her with someone?

In what ways do you think having this puppy/dog will change your lifestyle?

What are your family's favorite forms of recreation? Which activities would you include your dog in?

Feeding

What do you feed your present dogs?
What do you plan to feed your dog while it is a puppy? What do you plan to feed your dog as an adult?
*If this food is not super premium food, are you willing to change to a better-quality premium food?
