WHY DID YOU START YOUR OWN FIRM?

I began working in Aspen as a paralegal in 2010. When I went to law school in 2013, my intention was always to return to Aspen and develop my legal career here. I've worked for very reputable law firms in town; now, I'm confident that I can give my clients the legal services they need as a solo practitioner. On my own, I can focus directly on individuals, giving them a one-on-one, tailored experience. I fully appreciate the risks and rewards of owning a small business, so it pleases me to assist other local businesses and real estate owners as they make investments in my community. I want to help people—my neighbors—and the best way for me to help others overcome legal obstacles and achieve their goals is at the helm of my own practice.

WHAT'S YOUR SPECIALTY?

I specialize in real estate and transactional law, which means I assist clients with pretty much anything arising from a land use perspective—whether it's an application to construct something within the city or county, a real estate purchase and sale agreement, or resolving a dispute with a neighbor. I also represent HOAs and handle estate management for seasonal clientele. I really love being the person "on the ground" in Aspen who handles matters for clients and their properties, and my clients feel safe knowing that I'm taking care of everything while they're away. I also have a business finance degree and enjoy representing banks and other lenders to arrange transactions and partnership deals.
