

3*M BRAMBLESTONE AMETHYST *D

Amethyst is one of the first **polled does** born at Bramblestone Farm that Leza Wilke retained as part of her herd. As you can see, Amethyst was nicely put together. As a third freshener, her udder was starting to look fantastic and at that time, she scored an **87 in linear appraisal**.

Photos courtesy of Bramblestone Farm except as noted otherwise.

In her first linear appraisal, as a dry yearling, the appraiser was very complimentary about how Amethyst was put together, and in her second as a first freshener, she scored an **84**. What an accomplishment for a FF!

Amethyst **earned her milking stars in both AGS and ADGA as a first freshener & was Reserve Grand Champion** in her second show.

She's the grand-daughter of Bramblestone Farm's very first doe, Bit 'O' Honey, who was very conformationally correct (Bit' O' Honey earned her **Superior Genetics** designation, **milking stars as a 2nd freshener**, and an **89 in linear appraisal as a 3rd freshener**).

Her dam, Ruby, earned her **1st Championship leg, her milking stars**, and scored an **87 in linear appraisal** as a third freshener.

Amethyst's dam (Bramblestone Ruby's Photo is courtesy of Jeannie and Rakkasan Ranch)

The photo below is of Amethyst at about three months.
