

*B BRAMBLESTONE MIDNIGHT MOUSE

Midnight Mouse is the son of the first buck ([Old Mountain Farm Field Mouse](#)) and doe (**5*M** [Old Mountain Farm Taylor Quinn](#) ***D**) that Bramblestone purchased directly from Old Mountain Farm in Maine.

DNA on File

Midnight comes from an impressive line - the only time Midnight's sire was shown, he was **NEODGA Champion Junior Buck** and **Reserve Grand Champion Buck**. He is littermate brother to "**CH Old Mountain Farm All Over It EEE 91**"

Bramblestone Farm sold Midnight as a baby & Midnight became herdsire to a tiny herd and was never shown. While Midnight doesn't have permanent champion status (but I believe he would earn them very quickly if we were to show him). His half-brother, **CH** Old Mountain Farm Templeton earned his permanent champion status by the time he was two and also scored an **88 VEV** in linear appraisal as a two-year-old.

His other half-brother, Old Mountain Farm Magik Dragon is at Old Mountain Farm. Magik is a very good looking buck.

Midnight is a calm and friendly buck. Like his brothers, Midnight's length of body, level topline, and the way his legs are placed squarely beneath him are really spectacular. At four years old, Midnight was unofficially **22.5"** tall, so he is well under the height limitation for bucks and should not go over height.

Midnight's dam, 5*M Old Mountain Farm Taylor Quinn has her 5th generation milking stars and scored **87 V+EV** as a third freshener as pictured in the photograph below. Photo Courtesy Bramblestone Farm.
