

5*M OLD MOUNTAIN FARM TAYLOR QUINN *D

In the spring of 2013, Bramblestone Farm acquired Old Mountain Farm Taylor Quinn as a kid. Taylor became a **5th generation star milker**, scored **87 in linear appraisal as a 3rd freshener** and is definitely a beautiful doe like many of the Old Mountain Farm Nigerians are!

All the photographs herein are courtesy of Bramblestone Farm unless otherwise noted.

The photo below is of Taylor's 3rd freshening udder, and she just continues to improve!

Taylor's 3rd Freshening Udder (2017)

The photo below is of her second freshening udder just prior to being milked (12-hour fill). Taylor is really well attached and capacious she's looking as a second freshener. Taylor earned her **AGS milking star** and scored **84** in linear appraisal as a second freshener.

Taylor's 2nd Freshening Udder (2016)

You can see how her second freshening udder has improved; the photo below shows her first freshening udder.

Taylor's 1st Freshening Udder (2015)

Taylor was **Reserve Grand Champion Junior doe** the only time Bramblestone Farm showed her in 2013, and in 2014 she was **Grand Champion Junior** doe the only time Bramblestone showed! So, she's earned her restricted championship leg.

Below is a photograph of Taylor as a dry yearling after winning her restricted championship leg.

The photo below was taken about 3 months after winning Reserve Grand Champion.

Bramblestone Farm bred some beautiful Nigerian Dwarf Goats that we are so thankful that we were able to acquire a few of them to build our herd from.
