

Walking Working Surfaces and Fall Protection

Course Description

This course is part of OSHA's General Industry training.

The course begins by uncovering the importance of maintaining walking working surfaces, highlighting their pivotal role in preventing common workplace accidents and fostering a culture of safety, productivity, and proactive risk management.

This course will then help you to examine the significant role that specialized protective gear and essential safety tools play in building a strong workplace safety culture, ensuring alignment with regulatory standards to prevent accidents and promote employee well-being.

Further, you'll discover the urgent need for identifying and addressing fall hazards, focusing on empowering employees with the knowledge and proactive strategies required to reduce workplace accident risks.

Finally, the course will guide you through the essential systems intended to prevent falls, alongside the crucial safety measures that protect workers, underscoring the importance of preparation for when proactive steps alone are insufficient.

Learning Objectives

By the end of this course, you will be able to:

- Understand and identify different work surfaces and their associated risks and hazards.
- Comply with current safety practices and legislation in regard to safety of work surfaces.
- Recognise and identify the correct safety equipment to use for work surfaces and fall protection.
- Understand the risk of falls in the workplace and their consequences.
- Identify fall strategies and identify the difference between fall prevention and fall protection.

Target Audience

For those needing further safety in training, courses such as Materials Handling, Exit Routes and PPE should be completed alongside this one.

Advantages

Online training is flexible, efficient and cost effective meaning the candidate can progress through the modules at their own pace and in their own time, so they can fit the training around their work and personal life.

Modules

Course	Module Number	Module Name	Pass % Required
Walking Working Surfaces and Fall Protection	1	Understanding Walking Working Surfaces	70
Walking Working Surfaces and Fall Protection	2	Walking Working Surfaces, Preventative Measures and best practices	70
Walking Working Surfaces and Fall Protection	3	Understanding Fall Hazards	70
Walking Working Surfaces and Fall Protection	4	Fall Protection Strategies	70

Recommended System Requirements

- Browser: Up to date web browser
- Video: Up to date video drivers
- Memory: 1Gb+ RAM
- Download Speed: Broadband (3Mb+)

Duration: 60 minutes *(Note: This is based on the amount of video content shown and is rounded off. It does not account in any way for loading time or thinking time on the questions).*
