

Job Hazard Analysis

Course Description

JHA is a simple method of identifying and controlling the risks and hazards associated with each operation in the workplace.

We'll start by looking at the role of OSHA, and covers the benefits of performing Job Hazard Analysis including improving health and safety performance and reducing absences.

Stress is reduced and employees can take their time and work safely, so productivity increases and the organization operates at peak performance.

Then we'll look at the actions you should take before beginning a JHA including how you can involve the workforce.

We'll cover the five key stages of JHA, and look at how to choose the appropriate level of control and develop a hazard control plan.

We'll also look at how to review and revise controls once they are in place.

Finally, we'll discuss the importance of JHA and detail how they should be completed with useful, practical tips.

Learning Objectives

By the end of this course, you will be able to:

- Identify workplace hazards and work to implement precautions to prevent accidents.
- Understand how to control risks and hazards.
- Recognize the importance of the role of OSHA.
- Explain the five stages of JHA.
- Apply the JHA and understand its benefits.

Target Audience

This course is aimed at supervisors and managers that are responsible for carrying out Job Hazard Analysis tasks in the workplace.

Advantages

Online training is flexible, efficient and cost effective meaning the candidate can progress through the modules at their own pace and in their own time, so they can fit the training around their work and personal life.

Modules

Course	Module Number	Module Name	Pass % Required
Job Hazard Analysis	1	Introduction	70
Job Hazard Analysis	2	The Five Stages of JHA - Stage 1 and 2	70
Job Hazard Analysis	3	The Five Stages of JHA - Stage 3	70
Job Hazard Analysis	4	The Five Stages of JHA - Stage 4	70
Job Hazard Analysis	5	The Five Stages of JHA - Stage 5	70

Recommended System Requirements

- Browser: Up to date web browser
- Video: Up to date video drivers
- Memory: 1Gb+ RAM
- Download Speed: Broadband (3Mb+)

Duration: 45 minutes (*Note: This is based on the amount of video content shown and is rounded off. It does not account in any way for loading time or thinking time on the questions.*)
