

POLITICS

By C.E.Warner 8-27-21

Politics now more boxing than debate.

Points for cuts and damage in this round.

Shout nihilism loudly only to berate.

Real purpose the masses to confound.

Founding father's differences steeper.

Hangman's noose lurked behind every door.

Original sin's schism anger deeper.

Ultimate danger reaches resolve's core.

Politician's own interest foremost.

Statesman sacrifices own for greater.

Small men's fear of opinion uppermost.

Character withstands roaring masses' dictator.

Descend into mob rule's persecution

And you will be the French Revolution.
