

Resolutions

**New Years resolutions bring many smiles.
It seems every new year comes with new hope.
Many tempted by smiling baby's wiles.
Any relief as a method to cope.**

**We all suffer nature's indifference.
Life's blows fall without regard to merit.
Responsibility by inference.
Consequences are all we inherit.**

**To stop and reflect can give us perspective.
A review of past methods and mistakes
may reveal thinking ways more effective.
Annual assessment the bad forsakes.**

**To rethink one's priorities not bad,
but to blindly hold onto past is sad.**
