

## ICON SIP Trunk Service

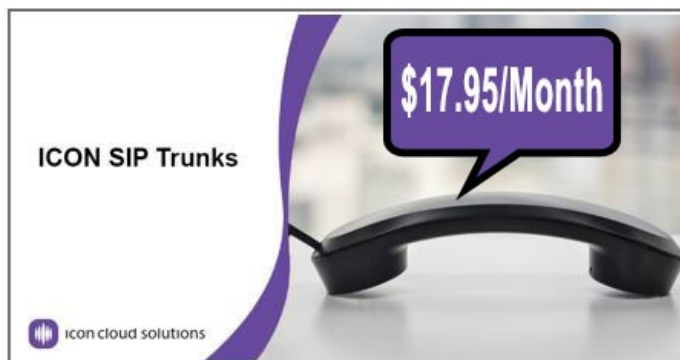

*Quick setup, simplified management with unlimited\* domestic calls.*

*One of the largest combined on-net & off-net local DID footprints with 13,000+ rate centers.*

As part of the largest national network, ICON's SIP trunking service offers a reliable and secure VoIP alternative to traditional phone lines.

### Standard Features

- Unlimited\* Local / Long Distance Calling - Unlimited calling to/from numbers within the Continental United States.
- Local Number Origination - Take advantage of one of the largest combined on-net and off-net local DID footprints with over 13,000+ rate centers.
- Toll Free Number Origination - ICON offers toll free inbound origination in the United States including Hawaii and Alaska, Canada, the Caribbean, Puerto Rico and Guam.
- Local Number Portability - Keep your existing local or toll free numbers by porting to ICON's world-class carrier network.
- Secure and Reliable Communications - At the heart of ICON's SIP trunk service is the security and reliability of a carrier-grade network that provides crystal clear call routing to/from your local DIDs.
- PBX Interoperability - ICON's SIP trunks have been tested to interoperate with many of the leading PBXs including Alcatel-Lucent Enterprise and Asterisk.
- E911 - ICON provides enhanced 911 service for all US-based local numbers. Our SIP trunks are compliant with the RAY BAUM's Act and allow you to update your dispatchable address when changing the location from where you access the service.
- Dedicated account management and U.S.-based customer support.

### Optional Services

**Fax** – Enable faxing without phone lines with ICON's softfax solution with the option to continue using a traditional fax machine or moving completely to an email to fax / fax to email solution.

**CNAM Provisioning** – Enable Caller Name on outbound calls.

**UCaaS & IaaS** – ICON's Unified Communications as a Service (UCaaS) and Infrastructure as a Service (IaaS) options allow businesses and solution providers to take advantage of a complete communications and collaboration solution without the cost of maintaining their own equipment and infrastructure.

**911 Use Only SIP Trunk Call Paths** – Comply with the RAY BAUM'S Act by enabling SIP trunks reserved for 911 calls only that include access to the 911icon.com dispatchable address change service.
