5. **Straw and Water Bottle** - to begin with you can grab a straw for cheap from your local supermarket or eco stores, either metal or silicone is going to be best. Aim to have at least 2-3 different sizes if you can. If you want a straw that is based in science check out some of the websites below

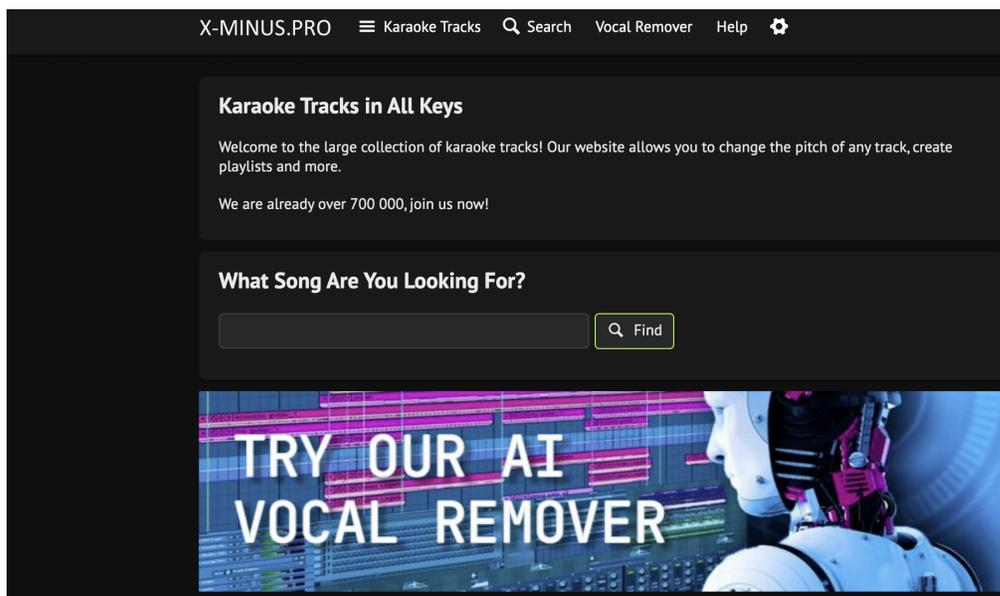

Example website to check out:

<https://voicestraw.com/>

<https://www.rayvox.co.uk/>

6. **Backing Trackings** - there are heaps of amazing backing tracks out there for a large majority of songs, but what about those less well known songs we all love singing. Thanks to AI and X-minus pro we can now create tracks. Simply upload your track and remove the vocals (or the other instruments).
