EXTENDED-RANGE LOITERING MUNITION UAS

Experience unmatched tactical precision with **Spectre** Advanced Loitering Munition UAS, this cutting-edge UAV platform redefines warfare effectiveness. With an extended range of up to 50 kilometers and an impressive 2 hour endurance, **Spectre** empowers tactical teams with remarkable efficiency. Equipped with advanced guidance capabilities and pre-launch selectable warheads, this fully autonomous system ensures optimal effectiveness against various targets.

Step into the future of military technology with **Spectre**, where precision and efficiency redefine the battlefield.

KEY FEATURES

- + High Precision Strike
- + Long Range and Endurance
- + High Attack Speed
- + Triple-Sensor Payload
- + User Selectable Warheads
- + Training Configuration
- + Safe and Easy to Operate
- + Advanced Autonomous Capabilities

SPECIFICATIONS

MTOW
10 Kg

COMM RANGE
UP TO **50 Km**

ENDURANCE
UP TO **2 Hrs**

WARHAED
UP TO **2.5 Kg**

ATTACK SPEED
UP TO **250 Kmph**

STRIKE PRECISION
CEP LESS THAN **1 Meter**

DIMENSIONS

WARHEADS TYPES

Controlled Detonation:
Proximity / Impact / Delayed

ANTI TANK

ANTI PERSONNEL
/ LIGHT ARMOUR

SEPARATE WARHEAD STORAGE.

Enhanced logistics & compact storage, Spectre's unique design separates warhead, optimizing storage, reducing bunker space, and simplifying transportation and handling.
