

Liz Marshall
Project Manager
Pacific Intermodal & Industrial Hub Project
Reynolds Rd,
Casino
NSW 2470

29th May 2017

Dear Liz,

ARTC have reviewed your recent application for connection to the ARTC network as part of the development of the proposed Pacific Intermodal and Industrial Hub Project.

As a result of this review ARTC are pleased to provide the Pacific Intermodal and Industrial Hub Project an in-principle endorsement for the submitted connection design that allows access to the intermodal facility via the ARTC ballast siding at Nammoona, Casino NSW.

This in-principle endorsement is subject to the following conditions

- The submission and approval of detailed designs and plans for the construction of the turn out and rail siding; and
- subject to an agreed operational protocol whereby ARTC will be provided with suitable operational windows as and when we require loading ballast rakes on the ballast siding.

Should you have any further questions or queries please do not hesitate to contact Ross Powell, Manager Marketing and Business Development Interstate Division or myself.

Yours sincerely

Richard Galbraith
General Manager Commercial and Customer Service
Interstate Division
