

TURN YOUR **FIRE ALARM** — INTO A — **WEATHER ALARM**

Automate severe weather alerts.
No more manual steps.

THE PAIN POINTS

MANUAL DEPENDENCY

Someone has to act.

NOT ALWAYS AVAILABLE

What happens when they're away?

DELAYED ALERTS

Every second matters.

INCONSISTENT PROTECTION

Different people.
Different decisions.

THE SOLUTION: **WEATHERCALL MANAGED RELAY SERVICE**

SITE-SPECIFIC

Alerts for your location.

AUTOMATED

Detects & triggers.

INSTANT ALERTS

Horn, strobe, voice.

AUTOMATIC ALL-CLEAR

Alert ends, you're notified.

NO FIREWALL CHANGES

Connects securely to the cloud—no IT headaches.

AUTOMATIC BACKUP

Optional cellular failover keeps you connected.

MANAGED FOR YOU

Preconfigured.
Monitored.
Supported.

SIMPLE INSTALLATION

Plug in. Connect.
You're protected.

— **AUTOMATE TODAY. BE READY TOMORROW.** —

AUTOMATED SEVERE WEATHER ALERTS FOR FIRE CONTROL SYSTEMS

Ask your WeatherCall representative for current pricing.

HOW IT WORKS

WHY WEATHERCALL SUPPLIES THE RELAY

- ✓ Faster installation
- ✓ Relay is pre-configured before shipment
- ✓ Secure cloud provisioning included
- ✓ No wildfire changes required
- ✓ Continuous remote monitoring
- ✓ Simpler support—no customer setup required
- ✓ Automatic cellular failover for uninterrupted protection

One partner. End-to-end protection.

SEVERE WEATHER & EVENT WARNINGS MONITORED 24/7/365

TORNADO WARNING

Tornado activity detected by NWS radar or confirmed.

SEVERE THUNDERSTORM WARNING

Winds over 58 mph and/or quarter-size or larger hail.

FLASH FLOOD WARNING

Life-threatening flooding is imminent or occurring.

LIGHTNING DETECTION

Detected lightning within 10 miles.

Receipt of any of the above warnings within a user-specified geo-fence (1-20 miles from your location) triggers your system. The geo-fence correlates to the time needed to shelter. The system deactivates when "all clear" signals are received.

ANNUAL COST PER RELAY PER LOCATION*

1st	First type of warning	\$726
2nd	Second type of warning or "all clear"	\$363
3rd	Each additional kind of warning or "all clear"	\$182

*Pricing does NOT include external relay switch or power supply.

SAMPLE CONFIGURATION

Tornado Warning + Lightning Detection +
Lightning "All Clear"

Annual monitoring cost **\$1,271.00**

RELAY + CELL SUBSCRIPTION*

*Costs subject to ControlByWeb pricing.
