# OPHEIM SEED & CHEMICAL NEWSLETTER

March 2017

## Yield 360 Center

Yield 360 continues to bring advanced technology to the market place with their newest products, 360 BULLET and 360 YIELD SAVER. During our 360 Meeting several of you either ordered or expressed interest in the YIELD SAVER. We will be placing an order the first week of March to take advantage of 360 Yield Centers free shipping offer. Take advantage of this offer by calling Rod or Jason to get your order in.

## Precision Planting

With spring planting just around the corner, Rod is ready to start checking meters. Give Rod a call for pricing and to set up a time to bring your meters by for Rod to put them on the meter stand.

We have changed the format of our Precision Planting Clinic this year to be geared more towards what our customers need. On March 29th, Rod and Jason will lead the training and it will be broke into two sessions. In the morning session we will cover the 20/20 monitor and how to write prescriptions. The afternoon session will cover 20/20, V-DRIVE, SPEED TUBES, DELTA FORCE, and how to write prescriptions. We hope this format will better help serve our customers by focusing on only the information you want or need to be ready for spring. Sign up for the session that best suits you by calling Jason or Rod to register.

## Seed & Chemical Supply

We have a great supply of some of our best performing corn and soybean seed still available if you have any acres you need to finish ordering seed for. All chemical and fungicide products are still available as well. Please contact Jason if you have any questions or need to order any products before the planting season arrives.

# Opheim Seed & Chemical Open House

It is hard to believe that it is almost that time of year again, but we hope your hungry for pancakes! The official date for the pancake breakfast/seed pick-up day is Saturday, April 1st from 8:00 AM to Noon. With the completion of our new seed shed we will be tying our pancake breakfast in with a tour of the new building and hope everyone will take advantage of the increased staff on hand to help load your seed for you to take home.

## Casey Huxford

Casey is finally arriving at Opheim Seed & Chemical! It has been many months in the making, but we couldn't be happier that the wait is almost over. Casey will be graduating mid-May and will join us on May 15th. We look forward to introducing Casey to you and having him become a resource for your farm. We encourage you to stop by to meet him at our Pancake Breakfast on April 1st. If you are unable to meet him in March, then please make contact with him in May regarding any scouting needs you may have. Casey's contact information is listed on page 3. Add his phone number to your contacts and feel free to contact him once he arrives.
