

Hoegemeyer Corn Hybrids

7088 AM

100 RM-2410 Heat Units

Other Trait Versions:

7086, 7087RR, 7089AMXT

Broad Adaptation

Moves south well

Above average ear flex

Solid disease package

7159 Q

101 RM-2410 Heat Units

Other Trait Versions:

None

New Qrome trait package

Good corn on corn

Very good emergence

Strong Roots

Fast dry-down

7224 AM

104 RM-2540 Heat Units

Other Trait Versions:

None

Top end yield potential

Excellent Standability

Strong emergence

Early flowering

Fast dry-down

7209 AM

102 RM-2460 Heat Units

Other Trait Versions:

7211 Q

Strong Yield

Excellent Agronomics

Girthy ears

Late season stalk quality

7402 AM

104 RM-2510 Heat Units

Other Trait Versions:

7404 Q

Good emergence and vigor

Broad placement

Great late season stalks

AQUAmax drought guard

7434 AM

104 RM-2550 Heat Units

Other Trait Versions:

7436 Q

Strong agronomics

Medium/Tall stature

Heavy test weight

High end yield potential

Good greensnap tolerance

7557 AM

105 RM-2600 Heat Units

Other Trait Versions:

7555, 7558AMXT

Yield leader

Excellent emergence

Girthy ears

Strong Corn on Corn

7900 AM

109 RM-2630 Heat Units

Other Trait Versions:

7900AM, 7901 AMXT

Top end yield

Good emergence

Prefers good soil moisture

Harvest timely – late stalk

8294 AM

112 RM-2690 Heat Units

Other Trait Versions:

None –

Strong agronomics

Medium stature

Heavy test weight

Fast drydown

Below Average Greensnap
