KRUGER SEEDS

CORN 

KR-4802D BRAND BLEND

TRAIT	RELATIVE MATURITY
DGVT2PRIB	102

KEY STRENGTHS

- New germplasm that has shown outstanding yield potential across Iowa.
- Exceptional root and stalk strength and greensnap tolerance.

CORN 

K0358DP BRAND BLEND

TRAIT	RELATIVE MATURITY
VT2PRIB	103

KEY STRENGTHS

- Elite, new genetics in the 103 RM for Kruger Seeds (TM)
- Manage with fungicide application to protect yield potential

NEW **CORN** 

K0456DP BRAND BLEND

TRAIT	RELATIVE MATURITY
VT2PRIB	104

KEY STRENGTHS

- Combines Agronomics and Yield potential for those versatile and optimum yield environments
- Agronomic stability with greensnap tolerance, harvest appearance and a disease tolerance package including Goss's Wilt and Anthracnose Stalk Rot

CORN 

KR-4704D BRAND BLEND

TRAIT	RELATIVE MATURITY
DGVT2PRIB	104

KEY STRENGTHS

- Statewide placement north to south with top end yield potential
- Suitable for rotated acres

CORN 

K0518DD BRAND BLEND

TRAIT	RELATIVE MATURITY
DGVT2PRIB	105

KEY STRENGTHS

- Medium statured plant that handles variable Iowa soil types
- Very good Goss's Wilt tolerance and excellent Greensnap tolerance

CORN 

KR-4706 BRAND BLEND

TRAIT	RELATIVE MATURITY
VT2PRIB	106

KEY STRENGTHS

- Excellent emergence makes for an excellent early planting option
- Very good standability, good stalk strength, excellent root strength and low risk for greensnap.

NEW **CORN** 

K0858DP BRAND BLEND

TRAIT	RELATIVE MATURITY
VT2PRIB	108

KEY STRENGTHS

- Strong yield potential with solid agronomic package and good ear flex
- A very versatile product with excellent emergence and seedling vigor; allows for an early start in the field

CORN 

K0915DD BRAND BLEND

TRAIT	RELATIVE MATURITY
DGVT2PRIB	109

KEY STRENGTHS

- Strong performance potential with very good Goss's Wilt tolerance
- Fast dry down allows for early harvest

OPHEIM DOUBLE PRO CORN

Corn

LEGAL

Bayer is a member of Excellence Through Stewardship® (ETS). Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. It is a violation of federal and state law to use any pesticide product other than in accordance with its labeling. NOT ALL formulations of dicamba or glyphosate are approved for in-crop use with Roundup Ready 2 Xtend® soybeans. NOT ALL formulations of dicamba, glyphosate or glufosinate are approved for in-crop use with products with XtendFlex® Technology. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED FOR SUCH USES AND APPROVED FOR SUCH USE IN THE STATE OF APPLICATION. Contact the U.S. EPA and your state pesticide regulatory agency with any questions about the approval status of dicamba herbicide products for in-crop use with Roundup Ready 2 Xtend® soybeans or products with XtendFlex® Technology.

B.t. products may not yet be registered in all states. Check with your seed brand representative for the registration status in your state.

IMPORTANT IRM INFORMATION: RIB Complete® corn blend products do not require the planting of a structured refuge **except** in the Cotton-Growing Area where corn earworm is a significant pest. **See the IRM/Grower Guide for additional information. Always read and follow IRM requirements.**

Roundup Ready® 2 Technology contains genes that confer tolerance to glyphosate. **Roundup Ready 2 Xtend® soybeans contain genes that confer tolerance to glyphosate and dicamba. Products with XtendFlex® Technology contains genes that confer tolerance to glyphosate, glufosinate and dicamba. Glyphosate** will kill crops that are not tolerant to glyphosate. **Dicamba** will kill crops that are not tolerant to dicamba. **Glufosinate** will kill crops that are not tolerant to glufosinate. Contact your seed brand dealer or refer to the Bayer Technology Use Guide for recommended weed control programs.

Performance may vary, from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on the grower's fields.
