KRUGER SEEDS

NEW

CORN 

K0191SS BRAND BLEND

TRAIT	RELATIVE MATURITY
SSRIB	101

KEY STRENGTHS

- Very strong yield potential with very good root and stalk strength
- Good overall disease tolerance profile including Goss's Wilt

CORN 

K4R-9802 BRAND

TRAIT	RELATIVE MATURITY
SSRIB	102

KEY STRENGTHS

- Excellent root and stalk strength along with very good Greensnap tolerance
- Germplasm that has shown very good yield potential across Iowa

CORN 

K0358SS BRAND BLEND

TRAIT	RELATIVE MATURITY
SSRIB	103

KEY STRENGTHS

- Elite, new genetics in the 103 RM for Kruger Seeds
- Excellent emergence and seedling vigor

CORN 

K4R-9704 BRAND BLEND

TRAIT	RELATIVE MATURITY
SSRIB	104

KEY STRENGTHS

- Good standability with very good drydown
- Statewide placement north to south with very good yield potential

NEW

CORN 

K0554SS BRAND BLEND

TRAIT	RELATIVE MATURITY
SSRIB	105

KEY STRENGTHS

- Great overall agronomics with eye appeal for solid performance potential
- Has shown strong standing roots early and late season

CORN 

K4R-9706 BRAND BLEND

TRAIT	RELATIVE MATURITY
SSRIB	106

KEY STRENGTHS

- Very good standability, excellent stalk strength, very good root strength and tolerance to greensnap
- Include as part of a package as an early-or-late maturity option

CORN 

K0917SS BRAND BLEND

TRAIT	RELATIVE MATURITY
SSRIB	109

KEY STRENGTHS

- A medium statured plant type with very good stalk and root strength
- Goss's Wilt tolerance and very good greensnap tolerance

NEW

CORN 

K1160SS BRAND BLEND

TRAIT	RELATIVE MATURITY
SSRIB	111

KEY STRENGTHS

- Outstanding plant health and agronomics with strong yield potential
- A great choice for corn on corn with its disease tolerance package and excellent emergence

OPHEIM SMARTSTAX

Corn

LEGAL

Bayer is a member of Excellence Through Stewardship® (ETS). Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. It is a violation of federal and state law to use any pesticide product other than in accordance with its labeling. NOT ALL formulations of dicamba or glyphosate are approved for in-crop use with Roundup Ready 2 Xtend® soybeans. NOT ALL formulations of dicamba, glyphosate or glufosinate are approved for in-crop use with products with XtendFlex® Technology. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED FOR SUCH USES AND APPROVED FOR SUCH USE IN THE STATE OF APPLICATION. Contact the U.S. EPA and your state pesticide regulatory agency with any questions about the approval status of dicamba herbicide products for in-crop use with Roundup Ready 2 Xtend® soybeans or products with XtendFlex® Technology.

B.t. products may not yet be registered in all states. Check with your seed brand representative for the registration status in your state.

IMPORTANT IRM INFORMATION: RIB Complete® corn blend products do not require the planting of a structured refuge **except** in the Cotton-Growing Area where corn earworm is a significant pest. **See the IRM/Grower Guide for additional information. Always read and follow IRM requirements.**

Roundup Ready® 2 Technology contains genes that confer tolerance to glyphosate. **Roundup Ready 2 Xtend® soybeans contain genes that confer tolerance to glyphosate and dicamba. Products with XtendFlex® Technology contains genes that confer tolerance to glyphosate, glufosinate and dicamba. Glyphosate** will kill crops that are not tolerant to glyphosate. **Dicamba** will kill crops that are not tolerant to dicamba. **Glufosinate** will kill crops that are not tolerant to glufosinate. Contact your seed brand dealer or refer to the Bayer Technology Use Guide for recommended weed control programs.

Performance may vary, from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on the grower's fields.
