# Soybean Local Positioning

<u>Product</u>	<u>RM</u>	<u>National Positioning</u>	<u>National Positioning</u>
<b>NK17-M2XF</b>	1.7	Trusted genetics bring excellent yield potential for maturity	Medium-tall plant type with great standability
<b>NK18-D1XF</b>	1.8	New genetic combination delivers big yield potential	Rps1k/3a gene stack provides solid tolerance to Phytophthora Root Rot
<b>NK20-K2XF</b>	2.0	Proven high performing genetics with IDC tolerance	Broadly adapted with best performance in high yielding environments
<b>NK23-T9XF</b>	2.3	Exciting Soybean White Mold genetics protect yield potential	Widely adapted with best performance on fine and medium textured soils

syngenta®

**CLASSIFICATION: PUBLIC.** Ratings are based on interpretation of statistically analyzed results of studies conducted by Syngenta and may change as additional data are gathered. Product performance assumes disease presence.

© 2023 Syngenta. **Important: Always read and follow label instructions. Some products may not be registered for sale or use in all states or counties. Please check with your local extension service to ensure registration status.** AAtrex 4L, AAtrex Nine-O, Acuron, Agri-Flex, Agri-Mek 0.15EC, Agri-Mek SC, Avicta 500FS, Avicta Complete Beans 500, Avicta Complete Corn 250, Avicta Duo Corn, Avicta Duo 250 Corn, Avicta Duo COT202, Avicta Duo Cotton, Besiege, Bicep II Magnum, Bicep II Magnum FC, Bicep Lite II Magnum, Callisto Xtra, Denim, Endigo ZC, Endigo ZCX, Epi-Mek 0.15EC, Expert, Force, Force 3G, Force CS, Force 6.5G, Force Evo, Gramoxone SL 2.0, Gramoxone SL 3.0, Karate, Karate with Zeon Technology, Lamcap, Lamcap II, Lamdec, Lexar EZ, Lumax EZ, Medal II ATZ, Minecto Pro, Proclaim, Tavium Plus VaporGrip Technology, Voliam Xpress, and Warrior II with Zeon Technology are Restricted Use Pesticides.

Some seed treatment offers are separately registered products applied to the seed as a combined slurry. **Always read individual product labels and treater instructions before combining and applying component products.** Orondis Gold may be sold as a formulated premix or as a combination of separately registered products: Orondis Gold 200 and Orondis Gold B.

**Important: Always read and follow label and bag tag instructions; only those labeled as tolerant to glufosinate may be sprayed with glufosinate ammonium-based herbicides.** LibertyLink®, Liberty® and the Water Droplet logo are registered trademarks of BASF. HERCULEX® and the HERCULEX Shield are trademarks of Corteva Agriscience LLC. HERCULEX Insect Protection technology by Corteva Agriscience LLC.

**Under federal and local laws, only dicamba-containing herbicides registered for use on dicamba-tolerant varieties may be applied. See product labels for details and tank mix partners.** Golden Harvest® and NK® soybean varieties are protected under granted or pending U.S. variety patents and other intellectual property rights, regardless of the trait(s) within the seed. The ENLIST E3® soybean trait, LibertyLink®, Roundup Ready 2 Xtend® and XtendFlex® traits may be protected under numerous United States patents. It is unlawful to save soybeans containing these traits for planting or transfer to others for use as a planting seed. Only 2,4-D choline formulations with Colex-D® Technology are approved for use with ENLIST E3® soybeans. Only dicamba formulations that employ VaporGrip® Technology are approved for use with Roundup Ready 2 Xtend® and XtendFlex® soybeans. ENLIST E3® soybean technology is jointly developed with Corteva Agriscience LLC and MS Technologies LLC. The ENLIST trait and ENLIST Weed Control System are technologies owned and developed by Corteva Agriscience LLC. ENLIST®, ENLIST E3® and STS® are trademarks of Corteva Agriscience LLC. Roundup Ready 2 Xtend®, XtendFlex® and YieldGard VT Pro® are registered trademarks used under license from the Bayer Group. Trademarks are the property of their respective owners.

Disease and insect ratings are not absolute; environmental conditions and certain cultural practices, such as continuous corn, play a critical role in disease development and insect infestation, which can predispose plants to secondary diseases such as stalk and ear rots. If conditions are severe, even hybrids rated as resistant can be adversely affected. Farmers should balance yield potential, hybrid maturity and cultural practices against the anticipated risk of disease or insect pressure.

*Corn Ratings: 1= Best, Tallest or Highest; 9= Worst, Shortest or Lowest; (+) = Not Available. A few ratings are on a 1-4 scale (Best, Good, Fair, Poor) instead.  
Soybean Ratings: 1= Best, 9= Worst, (+) = Not Available. A few ratings are on a 1-4 scale (Best, Good, Fair, Poor) instead.  
"High pH Soils" rating represents an assessment of stand establishment, chlorosis severity and yield performance.  
"Continuous Corn" rating indicates whether hybrid contains multiple agronomic phenotypic traits deemed important for continuous corn systems.*
