Kevin Vautt

| BRAND | MATURITY RANGE | VARIETY INFO & ATTRIBUTES | | | | | | AGRONOMIC RATINGS | | | | DISEASE & PEST TOLERANCE | | | | | MANAGEMENT | | | DETAILS |
|---------|----------------|---------------------------|------------|--------------|-------------|------------|--------------|-------------------|--------------------------|----------------------------|------------------------|--------------------------|----------|--------------------------|-----------------------|------------|--------------|------------------------|----------------|---|
| | | New | Trait Sort | Flower Color | Hilum Color | Plant Type | Plant Height | Emergence | Iron Chlorosis (High pH) | Charcoal Rot Drought Cmplx | Cyst Resistance Source | Brown Stem Rot | Frog Eye | Phytophthora Field Score | Sudden Death Syndrome | White Mold | High pH Soil | High Yield Environment | Marginal Soils | |
| 1635 E™ | 1.5-1.6 | Yes | E3,SCN-SB | Purple | Black | 6 | 5 | 7 | 5 | 4 | Peking | 7 | 8 | 4 | 6 | 4 | G | E | E | Enlist E3® with elite yield level for IA, MN, & SD; Peking SCN resistance combined with good tolerance to iron deficiency chlorosis; Plant height and canopy are suitable for all soil types |
| 1865 E™ | 1.8-1.9 | Yes | E3,SCN-SB | Purple | Brown | 5 | 5 | 6 | 6 | 4 | Peking | 7 | 8 | 4 | 6 | 4 | E | E | E | Enlist E3® that brings elite yield and broad adaptability; Peking SCN with very good iron chlorosis tolerance; Excellent standability with good plant height |
| 1903 E™ | 1.8-1.9 | No | E3,SCN-SB | Purple | Black | 7 | 5 | 8 | 5 | 5 | Peking | 7 | NR | 4 | 6 | 5 | G | E | E | Enlist E3® with premium genetics for yield and disease tolerance; Peking SCN resistance with Rps1k Phytophthora gene; Solid combination of good iron chlorosis, white mold, and SDS tolerance; Full canopy with good plant height for tough soil conditions |
| 2123 E™ | 2.0-2.1 | No | E3,SCN-SB | Purple | Brown | 5 | 5 | 8 | 6 | 4 | Peking | 7 | 8 | 4 | 5 | 4 | E | E | E | Enlist E3® leading yield and disease package; Peking SCN resistance with very good iron chlorosis tolerance; Rps1k Phytophthora gene with good brown stem rot tolerance; Widely adapted product that excels in high yield environments |
| 2185 E™ | 2.0-2.1 | Yes | E3,SCN-SB | Purple | Brown | 6 | 5 | 6 | 5 | 4 | Peking | 7 | 8 | 4 | 5 | 5 | G | E | E | Enlist E3® with elite yield and broad adaptability; Very good white mold tolerance; Consistent top yield performance from east to west; Peking SCN resistance with good tolerance to iron deficiency chlorosis |
| 2395 E™ | 2.2-2.3 | Yes | E3,SCN-SB | Purple | Brown | 6 | 5 | 7 | 5 | 4 | Peking | 7 | 8 | 4 | 6 | 4 | G | E | E | Enlist E3® with elite yield and broad adaptability; Top performance over a wide geography on most soil types; Reduce planting rate on lodge-prone soils |
| 2484 E™ | 2.3-2.4 | No | E3,SCN-SB | Purple | Brown | 6 | 4 | 7 | 5 | 5 | Peking | 7 | NR | 4 | 6 | 6 | G | E | G | Enlist E3® with a premium agronomic package; Peking SCN resistance with good tolerance to sudden death syndrome; Very good white mold tolerance combined with solid iron chlorosis tolerance; Excellent standability |
| 2763 E™ | 2.6-2.7 | No | E3,SCN-SB | Purple | Black | 5 | 4 | 6 | 5 | 4 | Peking | 7 | 7 | 3 | 5 | 3 | G | E | E | Enlist E3® with wide adaptation and top yield potential; Peking SCN resistance with good iron chlorosis tolerance; Rps1k Phytophthora gene, with strong tolerance to brown stem rot, and frogeye; Widely adapted product with big yield potential |

| NOTES: |
|--------|
| |

| CHART RATINGS: |
|---|
| All ratings on a 1-9 scale with 9 being the best. |
| Plant Type: 9 = Extremely Bushy; 1 = Very Narrow |
| Plant Height: 9 = Very Tall; 1 = Very Short |
| E = Excellent; G = Good; F = Fair; P = Poor |
| NR = No Rating |

IMPORTANT: Characteristic scores provide key information useful in selecting and managing products in your area. Information and ratings are based on comparisons with other products sold by Hoegemeyer. Information and scores are assigned by Hoegemeyer and are based on period-of-years testing through 2023 harvest and were the latest available at time of printing. Some scores may change after 2024 harvest. Scores represent an average of performance data across areas of adaptation, multiple growing conditions, and a wide range of both climate and soil types and may not predict future results.

Individual product responses are variable and subject to a variety of environmental, disease and pest pressures. Please use this information as only one component of your product positioning decision.

The transgenic soybean event in Enlist E3® soybeans is jointly developed and owned by Corteva Agriscience and M.S. Technologies L.L.C. Enlist One® and Enlist Duo® are not labeled for use in all 50 states. To find product labels, state registration status, and additional resources about the Enlist® weed control system and its availability, visit Enlist.com. Additional stewardship information on Enlist crops and to review seed product use guide details, visit traitstewardship.com.

Enlimited™ Grade Soybeans by Hoegemeyer is a trademark of Corteva Agriscience™.

Varieties with the STS® trait are tolerant to certain sulfonylurea (SU) herbicides. This technology allows post-emergent applications of Synchrony® XP and Classic® herbicides without crop injury or stress (see herbicide product labels). NOTE: A soybean variety with an herbicide tolerant trait does not confer tolerance to all herbicides. Spraying herbicides not labeled for a specific soybean variety will result in severe plant injury or plant death. Always read and follow herbicide label directions and precautions for use.

Varieties with BOLT® technology provide excellent plant-back flexibility for soybeans following application of sulfonylurea (SU) herbicides such as LeadOff® or Basis® Blend as a component of a burndown program or for double-crop soybeans following SU herbicides such as Finesse® applied to wheat the previous fall.

Components of LumiGEN® technologies for soybeans are applied at a production facility, or by an independent sales representative of Corteva Agriscience or its affiliates. Not all sales representatives offer treatment services, and costs and other charges may vary. See your sales representative for details. Seed applied technologies exclusive to Corteva Agriscience and its affiliates.

ILEVO® is a registered trademark of BASF.

Following burndown, Enlist Duo® and Enlist One® herbicides with Colex-D® technology are the only herbicides containing 2,4-D that are authorized for preemergence and postemergence use with Enlist® crops. Consult Enlist® herbicide labels for weed species controlled. Enlist Duo and Enlist One herbicides are not registered for use or sale in all states and counties; are not registered in AK, CA, CT, HI, ID, MA, ME, MT, NH, NV, OR, RI, UT, VT, WA and WY; and have additional subcounty restrictions in AL, GA, TN and TX, while existing county restrictions still remain in FL. All users must check "Bulletins Live! Two" no earlier than six months before using Enlist One or Enlist Duo. To obtain "Bulletins," consult epa.gov/espp/, call 1-844-447-3813, or email ESPP@epa.gov. You must use the "Bulletin" valid for the month and state and county in which Enlist One or Enlist Duo are being applied. Contact your state pesticide regulatory agency if you have questions about the registration status of Enlist® herbicides in your area. ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. IT IS A VIOLATION OF FEDERAL AND STATE LAW TO USE ANY PESTICIDE PRODUCT OTHER THAN IN ACCORDANCE WITH ITS LABELING. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED FOR SUCH USE IN THE STATE OF APPLICATION. USE OF PESTICIDE PRODUCTS, INCLUDING, WITHOUT LIMITATION, 2,4-D-CONTAINING PRODUCTS NOT AUTHORIZED FOR USE WITH ENLIST CROPS, MAY RESULT IN OFF-TARGET DAMAGE TO SENSITIVE CROPS/AREAS AND/OR SUSCEPTIBLE PLANTS, IN ADDITION TO CIVIL AND/OR CRIMINAL PENALTIES. Additional product-specific stewardship requirements for Enlist crops, including the Enlist Product Use Guide, can be found at www.traitstewardship.com.
