LINER REPLACEMENT CONTRACT

Pool Guise LLC will:

- 1.Remove existing liner from pool, bag it, and place in customer's recycle area or trash pick-up area. We may be able to remove from site for a fee.
- 2.Install Gorilla Pads, Rhino Shield, foam cove for a charge. Wall foam will be installed for \$100 fee per roll; Customers concerned about possible liner puncture from rocks, roots, structural steel, burrowing insects, etc. are encouraged to inquire about these products.
- 3.Install liner to or above manufacturer's specifications.
- 4.Provide coping for overlap liners and liner lock for beaded liner as need at an extra charge.
- 5.Skim bed of pool to remove existing craters or mounds. This does not include leveling or any other floor work that requires more than 10 minutes of manual labor
- 6.Use a vacuum where applicable to remove excess wrinkles from liner during installation. This does not guarantee no wrinkles
- 7.Re-connect all hoses, lights, and alarms that were there when we started the job at no charge. we do not guarantee leak free connections

Pool Guise LLC. Will NOT:

- 1.Wait for more than an inch or two of water to pump out without charging a fee.
- 2.Be responsible for wrong size or wrong type of liner bought by customer.
- 3.Be responsible for leaks due to manufacturer's defect (seam separation). However most retailers will provide a new liner at no charge most will not cover the labor fee, provided you find said defect and show to them. Burden of proof is with you. Check with your retailer.
- 4.Guarantee a wrinkle free or footprint free liner, however we will do everything we can to eliminate both.
- 5.Be responsible for leaks due to "Acts of God" i.e. fallen trees, ice damage, winter damage, excessive rain or snowfall, high winds, burrowing insects, ground water, etc.
- 6.Be responsible for any damage to pool, liner, or site including dwellings, structurally or cosmetically as the result of water from natural sources or from tanker truck or defective parts, including pool, liner, pump and filter.
7. Be responsible for drips and leaking non glued connections as a result of wear and tear, prior use, inoperable clamps.

It is the Customer's responsibility to:

- 1.Make sure the pool is empty when we arrive. A puddle or two is fine. 3" is not fine. 600lbs of wet leaves is not fine. Shop vac liner when down to last few inches when draining and remove any debris. Any remaining water will be removed for a charge.
- 2.Provide the correct size, shape, and type of liner and have it easily accessible at the time of installation.
- 3.Provide a new water tight skimmer and return assembly. I cannot guarantee your old skimmer. There will be a service call fee to come back out and replace skimmer or readjust non glued hoses . You will also have to drain pool below return level.
- 4.Provide a "live" electrical source to plug our tools into.
- 5.Provide a water source with enough garden hose to reach the pool. Collapsible hoses are no good.
- 6.Let us know if your pool has a deeper middle or deck around any or all of the pool. We need to know if it is a factory bought deck(steel) or a custom made deck (wood). There may be an additional charge if the middle is deeper (more time needed to fill with water and remove wrinkles). If the deck on the pool prevents us from easily disassembling the top of the pool (if necessary), there may be an addition fee.
- 7.Fill the pool to the tape line / or with 12-18" of water immediately. THEN STOP FILLING. Allow 24-48 hrs (depending on temperature and sunshine) for liner to stretch before filling completely. Water tanker trucks can be scheduled after liner has stretched.
- 8.Know the retailer's and/or manufacturer's policy regarding defective liners and in the unlikely event that the liner is defective, it is the customer's responsibility to locate said defect and get replacement liner. I will not provide labor to install the new liner at no cost to you.
9. Be responsible for tools required to be left at jobsite such as liner vac, pumps, shop vac and agree to pay for replacements if damage occurs
10. in the event of ground water or rain delay. The customer is responsible for the operation and monitoring of all equipment used to drain standing water from above or below the liner, furthermore the customer is responsible for any damages or stretching that occur from failure to keep up with rain or groundwater. Regular service fees will apply for extra trips and time accrued fixing or maintaining water levels
- 11.Have payment ready when job is completed. Final payment must be cash, bank check, or money order or paid through the website portal prior to Pool Guise LLC leaving the property.
