

In Iceland they threw the bankers and investors in jail... when they screwed the country. Let's think about that. This paper will get into the right hands and attract the right people.

The Top Quote

My mission in life is not merely to survive, but to thrive; and to do so with some passion, some compassion, some humor, and some style.
Maya Angelou

TALKING ABOUT REALITY

You were born - now you get over charged for everything... and the gov't protects the corporations screwing you... because the gov't created them

Darin Howard, the Editor - Edmonton, AB - 2024.

Africa can provide food, fertilizer and jobs for people... at 1/100th the cost.

Why aren't we doing that?

Australia figured out how to give rural 3rd world countries food at 4x the output / jobs.

Why aren't we doing that?

Asia has rehabilitated entire provinces from being over-industrialized to lush - green areas that provide food and jobs. *Why aren't we doing that?*

We live under the economic gun of a 'power provider', why don't we have water wheels providing relief for everyone... on our river... *providing us with free energy?*

We all know the answer: City Hall, the Province and Federal Gov't are using a medieval corporate system for modern people. Our system has never worked, simply because it's built on greed and hate - the concept that profits and the economy are more important than us.

In 2012 - we discovered that we could literally save the world and the economy at the same time... if we phase out the corporate profit system for food and rent

Even the people working at city hall inherited this medieval greed fest... and not one politician has proposed a plan to phase out big box extreme-profit grocery & merchandise stores. They monopolized everything we do - now we're screwed.

We have a plan to phase out extreme profit stupidity, and while we do that, we can save the climate and economy.
Thanks for reading this far.

The corporations and government aren't going to magically grow some morality and suddenly become good people...

So we decided we had enough... and a lot of people really do want to stop the insanity. That's why we need your help.

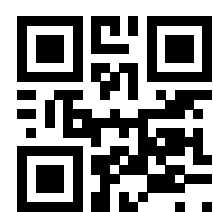

This machine creates jobs, fertilizer and heating fuel - for free...

I need your help to lower food prices, get real jobs going, and end the hipocracy of calling a bunch of un-elected bureaucrats a 'government' and giving them authority to... enforce high prices and end all real jobs - which is exactly what's happening.

There is no 'inflation' - it's a greed fest. Those corporations who are getting stronger are just screwing us - along with Real Estate parasites, and more than a few others. I have a solution to all this.

It's a simple solution - and we can start right now.

Solutions - Music - a sense of humour

our solutions need your help

PALESTINE - CANADA - UKRAINE

We try to keep things... lighter... so before the report on the Genocide in Gaza, I could not speak much about Palestine. I'm first nations - I survived the Catholic Genocide against my family, the 215. Now, we're working through deep, deep feelings about Palestine - we have a plan now to try and help. Thank you - Darin Howard - Owner

VERY REAL SOLUTIONS

Sick of the gov't treating us like fools

- 1 - How soon can we get simple hydro/river power to homes - to phase out the power monopoly?
- 2 - Where is the plan to phase out big-box food stores that are price gouging, and causing poverty?
- 3 - Where is the plan to phase out profiteering landlords and toxic real estate investors - and roll back prices to a realistic level?
- 4 - Where is the solid plan to reverse climate change, using the oil industry as a springboard?

We can use 3rd world technology this year to create high paying, local jobs.

We can also end credit card, and mortgage debt
• ***basically all debt - using the same formula**

Today - you can help out by finding us at our Website, by taking a picture of this poster and spreading it around, or by directly volunteering with our positive-action group. Above all we need you to ask real questions, and expect real answers from a government we pay for.

PI ε r

grow one tomato plant right now to show the corporations we can phase them out

We need your help to get the word out - we CAN save the world - and we have the tools to do it. We need help on-line and in person. thank you

- 1 - Anyone can join but, no religious or greed agendas please.
- 2 - We need daily, weekly and monthly volunteers.
- 3 - Our organization is built on one rule: Respect. That's it.
- 4 - We are building our way out of dystopia... into reality.
