USING THE *TREE SIMPLE PROCESS* ™

The ***Tree Simple Process*** refers to your entire purchase experience; from receiving this document to our crews planting the trees on your property. At Green Simple, we believe in making your life, well, simple! All you have to do is fill out the form below, send it back to us or give us a call at the number below. No more getting quotes, guessing prices, hidden fees, or veil of secrecy when it comes to installing trees on your property. The prices you see on the following pages are the exact price that will end up on your invoice.

Our 5 Simple steps:

1. *Pick your favorite Tree Package*
2. *Have your Design Consultation*
3. *Secure your install date with a 50% Deposit*
4. *Receive your Install*
5. *Sit back, Relax, & Enjoy your Privacy.*

All of our trees are locally grown, in North Georgia, with the utmost care and dedication to making sure they are full bodied, and healthy. In the following pages you'll read about "hardiness zones" it's simply a special word to describe the climate of where the tree thrives. Since all of our trees are grown locally, theres no need to worry about them not thriving. To give a frame of reference, Metro Atlanta is a hardiness zone of 8, where as in Chicago Illinois, it is a hardiness zone of 5. Its not super important to know what a hardiness zone is, we just believe in complete transparency and simplicity when it comes to doing business with you.

Want Trees? It's simple. Green Simple.

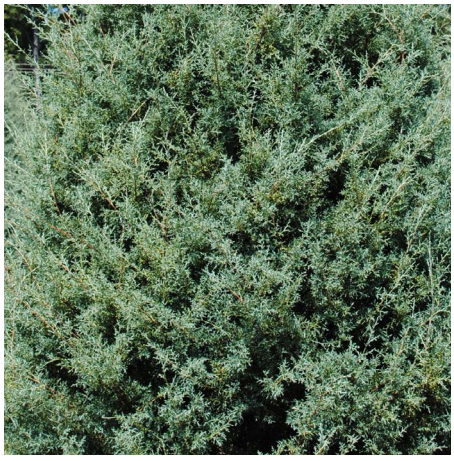
Bracken Brown Beauty Magnolia

Botanical Name: Magnolia grandiflora 'Bracken's Brown Beauty'

Lustrous, leathery foliage is rich, dark green above and cinnamon brown underneath. Large, 5 to 6 inch creamy white flowers are exotically fragrant. A hardier magnolia that transplants well and does not lose as many leaves as other varieties, and exhibits better cold tolerance than others. Evergreen.

Type: Broadleaf Evergreen
Family: Magnoliaceae
Hardiness Zone: 7 to 9
Projected Height: 60 to 70 feet
Spread: 30-50 Feet

Bloom Time: May to June
Sun needs: Full sun to part shade
Soil Condition: medium wetness
Maintenance: medium



REF: ***B***

Carolina Sapphire Cypress

Botanical Name: Cupressus arizonica var. glabra 'Carolina Sapphire'

'Carolina Sapphire' is a conical, broadly pyramidal conifer. It is known for reddish-purple flaky bark with spirally arranged, blue-silver sprays of needles. It has a slightly more erect growth habit than most Arizona Cypress.

Type: Needled Evergreen
Family: Cupressaceae
Hardiness Zone: 6 to 9
Projected Height: 20 to 30 feet
Spread: 10-15 Feet

Bloom Time: non-flowering
Sun needs: Full sun
Soil Condition: medium wetness
Maintenance: low
