CLUB OF KENNEWICK

## 2023-24 ANNUAL REPORT

Over a Half a Million Dollars given back to Kennewick!

The 2023-24 year has been an exceptional year. President Amy asked committee chairs to try to increase service projects by at least one per committee and did they ever deliver! We nearly tripled our projects. A new fundraising event by President-Elect Michelle provided extra funds so our club could provide much needed help to a variety of organizations in the area. The playground at the Boys and Girls Club was completed; our Young Professionals with the Foundation, raised over \$120,000 for B5 Family Learning Center; our community service committee focused on Grace Clinic and provided medical supplies and food for their patients; our board tackled some big issues helping propel our club forward.
