Shown with medium back

Rhino Basic Sit/Stand

Adaptable, multipurpose seating

Rhino Basic Round Stool

Compact durability

The Rhino Basic Series

**TOUGH, DURABLE, AND READY TO
HANDLE ANY ENVIRONMENT**

Rhino Basic chairs and stools are simple and functional seats for all types of uses.

Each features durable molded polyurethane seats and backs, providing resistance to chemical and physical damage while remaining easy to clean.

Cleanable

The smooth Rhino-tough polyurethane covering is designed to handle heavy-duty cleaning with harsh chemicals and protect from dirt, bacteria, and impurities.

Durable

Seating doesn't get any more hard-wearing, hard-working, or resilient in the face of severe 24/7 stress and punishment - resisting any significant physical damage.

Functional

Rhino Basic is highly utilitarian, offering a wide range of applications for specific uses and active working postures such as sit to stand, tight quarters, adjustable heights, and various ranges of motion.

// *Cleanroom and ESD compliant*

// *300-lb weight capacity*

// *Hand- or foot-activated adjustment*

// *10-year, three-shift warranty*

Specialists in seating solutions for sensitive Med-Tech environments

Every Cramer product is the result of rigorous engineering and design, tailored to meet the demanding standards of modern Med-Tech workspaces.

We've given equal and thoughtful consideration to both technical purpose and comfortable performance - providing long-lasting support and peace of mind.
