

## **FOR IMMEDIATE RELEASE**

### **International Women in Cyber Day™ Unveils New Website and Domain**

**Calgary, AB - August 7, 2024** – The International Women in Cyber Day (IWCD)™ is excited to announce the launch of its new website at <https://womenincyberday.org>. This new platform reflects our commitment to fostering a global community that supports and celebrates women in cybersecurity while highlighting the importance of gender diversity in the industry.

#### **Why the Change?**

We have transitioned to a new domain due to unforeseen circumstances with our previous provider. This change ensures that our community has a secure, reliable platform to access resources, post and participate in events, and stay informed about the latest developments for women in cybersecurity.

#### **What's New?**

- **User-Friendly Interface:** An intuitive layout that makes navigation easy and accessible.
- **Expanded Resources:** A wealth of information, tools, and support for women at all stages of their cybersecurity careers.
- **Community Engagement:** New forums and discussion boards to foster collaboration and networking.
- **Event Updates:** Detailed information on upcoming events, webinars, and workshops.

#### **A Commitment to Security**

The transition to our new domain also underscores our dedication to maintaining the highest standards of security and privacy for our users. We have implemented advanced security measures to protect our community from any potential threats.

#### **Partner and Sponsorship Opportunities**

We invite organizations and individuals to partner with us in promoting International Women in Cyber Day. There are various sponsorship opportunities available to support our mission of fostering diversity and inclusion in the cybersecurity industry. By becoming a partner or sponsor, you can:

- **Enhance Your Brand:** Showcase your commitment to diversity and inclusion in cybersecurity.
- **Reach a Global Audience:** Engage with a worldwide community of cybersecurity professionals and advocates.
- **Support Women in Cyber:** Help provide resources, events, and opportunities for women in the field.

### **Celebrate International Women in Cyber Day on September 1<sup>st</sup>!**

Join us in celebrating International Women in Cyber Day on September 1! This special day is dedicated to recognizing and promoting the achievements of women in cybersecurity.

### **There are numerous ways to get involved:**

- **Host or Participate in Events:** Attend our webinars, workshops, and panel discussions.
- **Share Your Story:** Contribute to our blog and share your experiences in cybersecurity.
- **Spread the Word:** Use **#IWCD2024** on social media to raise awareness and celebrate the day.

### **We Appreciate Your Patience**

Please note that our new site is still being developed. We ask for your patience as we transition from our old site to the new one. We are working diligently to provide you with the best possible experience.

Visit our website at <https://womenincyberday.org> to learn more and gain access to official IWCD resources. Together, we can create a more inclusive and diverse cybersecurity industry.

### **About International Women in Cyber Day™**

International Women in Cyber Day is an annual event dedicated to recognizing and promoting the achievements of women in cybersecurity. Our mission is to create a more inclusive and equitable industry by providing resources, support, and opportunities for women around the world.
