When Should You Schedule a Deep Cleaning?

A Standard Cleaning is intended for homes that are already maintained. We recommend upgrading to a Deep Cleaning when:

- It has been several months since the home was professionally cleaned.
- You're preparing for guests or holidays.
- You're moving into or out of a home.
- There is heavy buildup, grease, soap scum, pet hair, or excessive dust.
- You want detailed cleaning of areas not included in recurring maintenance.

The Nexra Promise

- Our goal is consistency. Every visit follows proven cleaning systems designed to keep your home looking its best between deep cleanings.

- If something within the agreed service scope was missed, simply let us know promptly and we'll work with you to make it right.
