SECTION I.

OVERVIEW OF YOUR WARRANTY*

STRUCTURAL WARRANTY

While your home was carefully constructed and inspected, unforeseen problems occasionally arise, even in the best-built homes. Your structural warranty addresses the designated load-bearing elements of your home. For more information about your structural warranty, please review Section III.

STRUCTURAL ITEMS COVERED*

Roof framing systems, load-bearing walls and partitions, beams, columns, footings and foundation systems, floor framing systems, girders, lintels, and masonry arches

Your structural warranty addresses structural defects, including those caused by certain types of soil movement. A structural defect is actual physical damage to designated load-bearing elements caused by failure of the load-bearing elements that affects their load-bearing functions to the extent that your home becomes unsafe, unsanitary, or otherwise unlivable.

SECTION II.

IMPORTANT NEW HOME MAINTENANCE

Maintenance is a key part of homeownership and can reduce defects and breakdowns, which can help you avoid unexpected costs.

This guide will give you a baseline for some of the most common and important home maintenance tasks you'll need to tackle. However, this list is not fully inclusive and may vary based on your geography and manufacturer recommendations.

It's important to remember that you are responsible for proper maintenance of your home. Your builder/seller and the warranty insurer (as applicable) are not responsible for problems that arise from or relate to the failure to perform normal maintenance on your home.

A few of the most important maintenance tips

- **HVAC filters:** Change them according to the manufacturer's recommended schedule.
- **HVAC system:** Have it inspected annually, either in spring or fall.
- **Windows and doors:** Inspect for cracks and gaps in summer and winter.
- **Grading:** Maintain the grading your builder/seller established to ensure water drains away from the foundation of the home.
- **Toilets, sinks, dishwashers, and tubs:** Check for leaks. Caulk or repair as needed.
- **Wood floors and wall finishes:** Clean and preserve.
- **Irrigation systems:** In cold climates, drain, blow out, and disconnect all hoses before the first freeze.
- **Landscape:** Plant trees and shrubs at the proper distance from your home and conform to generally accepted landscape practice for your region.

An optional Home Service Plan* could help you reduce the overall cost of owning a home. This optional coverage provides protection against unexpected system and appliance breakdowns, such as to your air conditioner or water heater.

SECTION III. YOUR STRUCTURAL WARRANTY

Your structural warranty provides protection during the warranty term against structural defects to the designated load-bearing elements of your home. The designated load-bearing elements that are covered under this warranty are limited to the items identified in this Section III. Damage to the non-load-bearing elements of your home is not a structural defect. A non-exclusive list of non-load-bearing elements that are not covered under this warranty is listed below.

DESIGNATED LOAD-BEARING ELEMENTS

1. Roof framing systems
2. Load-bearing walls and partitions
3. Beams
4. Columns
5. Footings and foundation systems
6. Floor framing systems
7. Girders
8. Lintels (Not pictured)
9. Masonry arches (Not pictured)

Note: Your home may not have a basement.

EXAMPLES OF NON-LOAD-BEARING ELEMENTS

Damage to these items is not considered a qualifying structural defect.

- Roof shingles, roof tiles, sheathing, and underlayment
- Non-load-bearing walls, drywall, and plaster
- Flooring and underlayment material
- Plumbing, electrical, and mechanical systems
- Any type of exterior siding, stucco, brick, and stone veneer, including but not limited to, veneer attached to arches supported by internal framework
- Basement, garage, and other interior floating ground-supported concrete slabs

Your structural warranty is for catastrophic failure of the designated load-bearing elements. Your structural warranty addresses structural defects caused by soil movement to the extent not otherwise excluded in this booklet. As set forth in Section VI, all of the following are required to qualify as a structural defect:

1. There must be actual physical damage to one or more of the designated load-bearing elements of your home.
2. The actual physical damage must be caused by the failure of a designated load-bearing element.
3. The failure of the designated load-bearing function of the element renders your home unsafe, unsanitary, or otherwise unlivable.

REPORTING A STRUCTURAL DEFECT CLAIM

All structural defects must be reported to the warranty administrator as soon as possible, but no later than the expiration of the warranty term for your structural warranty. To report a structural defect, email warrantyadministration@2-10.com or call the warranty administrator at 855.429.2109. In addition, you must submit a \$250 investigation fee (payable to the warranty insurer) to the warranty administrator. After you provide the warranty administrator with notice of your claim and the investigation fee, the warranty administrator will submit the claim to the warranty insurer. The investigation fee will be refunded to

you if the warranty insurer determines you have a covered structural defect.

YOU WAIVE YOUR RIGHT TO COVERAGE UNDER THE STRUCTURAL WARRANTY IF STRUCTURAL DEFECTS ARE NOT REPORTED WITHIN THE TIME LIMITATIONS. IT IS YOUR RESPONSIBILITY TO MAINTAIN ADEQUATE PROOF THAT YOU REPORTED EACH CLAIMED STRUCTURAL DEFECT WITHIN THE TIME LIMITATION.

SECTION IV. YOUR RESPONSIBILITIES

To ensure your builder/seller, the warranty insurer, and the warranty administrator can effectively carry out their obligations under this booklet, you must also perform all your obligations throughout this booklet. This Section IV lists requirements that you must perform in addition to your other responsibilities stated elsewhere in this booklet, for example, timely reporting of claims, performing maintenance, and adhering to the dispute resolution procedures. Your builder/seller, the warranty administrator, and/or the warranty insurer are not responsible for any claims, losses, delays, or damages that arise from or relate to your failure to fulfill any of your obligations under this booklet, and they shall have no responsibility to take any action in connection with any structural defect unless and until you have fulfilled all your relevant obligations in this booklet.

A. ACCESS TO YOUR HOME

The builder/seller, warranty insurer, and their respective agents require access to and within your home to perform their responsibilities under this booklet. You agree, upon receipt of advance reasonable notice, to allow such access during normal business hours to inspect, repair, or conduct tests on your home as may be required to evaluate or repair a structural defect. If emergency repairs are necessary and you cannot be reached within a reasonable time, you waive such notice.

Additionally, the builder/seller, warranty insurer, and their respective agents shall have the right, in advance of any arbitration concerning your home, to re-inspect your home if the last inspection was greater than 45 days prior to the arbitration hearing.

If you do not provide access to your home as required in this Section IV.A, you hereby waive any obligations of the builder/seller and warranty insurer to proceed with any of their obligations to investigate,

repair, pay for, or otherwise address any potential structural defect under this warranty.

B. SUCCESSIVE OWNERS OF YOUR HOME

Your obligations and rights provided in this booklet stay with your home and shall transfer to each subsequent owner of your home for the remainder of the applicable warranty term, if any. This means all of your rights and obligations under this booklet—up to the remaining amount of the warranty limit, if any—will transfer to a purchaser of your home or any person who otherwise obtains title to your home, including any mortgagee in possession.

When you transfer your home, you agree to give a copy of this booklet and the Certificate of Warranty Coverage to the acquirer of your home before the transfer of your home is completed, such that the new owner has a reasonable opportunity to understand the rights and obligations under this booklet. Each successive owner of the home is bound by all of the terms and conditions of this booklet, including but not limited to the binding arbitration agreement in Section V.E.

If you are a successive owner of the home, you will benefit from the express limited warranty set forth in this booklet, but in return, you are bound by all of the terms, conditions, and exclusions in this booklet, including but not limited to the procedures that must be followed to make a claim and the binding arbitration agreement in Section V.E of this booklet. To register the Certificate of Warranty Coverage in your name, please visit www.2-10.com/SHRForm to complete the Successive Homeowner Registration and Arbitration Acceptance Form, or you can request the form from the warranty administrator at warrantyadministration@2-10.com.

C. EMERGENCY REPAIRS

For the purposes of this booklet, the need for an emergency repair exists when there is an immediate substantial risk of serious physical damage to the home or a substantial risk of bodily injury to its occupants if a structural defect is not immediately repaired. Before you attempt an emergency repair, you must make reasonable efforts to contact your builder/seller or warranty administrator immediately for authorization to make the emergency repair. If you are unable to contact these parties, you must only take the reasonable and necessary steps to mitigate the emergency until authorization for more extensive repairs has been approved by your builder/seller or warranty administrator. Reasonable and necessary action may include temporary shoring, bracing, or covering with protective material. After taking reasonable and necessary steps to mitigate the risk, report the emergency to your builder/seller or warranty administrator on the next business day.

D. SUBROGATION RIGHTS AND RELEASE OF LEGAL OBLIGATION

After any repair of (or before receiving any payment in lieu of repairs of) any structural defect, you must provide a full and unconditional written release of the builder/seller, warranty administrator, warranty insurer, and related parties—in recordable form—of all legal obligations with respect to the structural defect and all related conditions. Your builder/seller or warranty insurer shall have all rights of subrogation to any rights you may have against any other person with respect to a structural defect, to the full extent of all costs the builder/seller or warranty insurer incurred in addressing the structural defect, except there shall be no subrogation to or assignment of any rights that you may have against the warranty insurer and/or warranty administrator. You agree to perform any acts and execute any applicable documents that may be necessary for the builder/seller, warranty administrator, warranty insurer, and/or related parties to secure and effectively enforce these rights of subrogation. You agree to refrain from taking any action that may prejudice these rights.

SECTION V.**IMPORTANT TERMS AND CONDITIONS
THAT APPLY TO YOUR WARRANTY****A. THE LIMITS OF YOUR WARRANTY**

Your warranty limit is the combined total aggregate financial obligation and liability of the warranty insurer for all claims, warranties, and liability arising out of or otherwise relating to this booklet, including but not limited to liability related to structural defects. All costs incurred by the warranty insurer to address any structural defect will be deducted from your warranty limit.

B. THE RIGHT TO REPAIR OR PAY FOR STRUCTURAL DEFECTS

The warranty insurer shall have the right to repair or pay you the reasonable cost of repair of any structural defect. The design, method, and manner of such repair, and the option to repair or pay, shall be within the sole and absolute discretion of the warranty insurer in respect of a structural defect.

No repair shall extend any warranty term, including without limitation the warranty term applicable to the structural defect that was the subject of the repair.

Repairs of a structural defect are generally intended to restore the home to approximately the condition just prior to the structural defect but not necessarily to a like-new condition. However, at the warranty insurer's sole discretion, repairs may include permanent alterations to architectural or design features in order to complete the repair. The repair of a structural defect is limited to:

1. The repair of damage to designated load-bearing elements of the home to the extent necessary to restore their load-bearing ability.
2. The repair of non-designated load-bearing elements, items, or systems of the home to the extent such items were damaged by

the structural defect and make the home unsafe, unsanitary, or otherwise unlivable (e.g., the repair of inoperable windows and doors and the restoration of functionality of damaged electrical, plumbing, heating, cooling, and ventilating systems).

3. The repair and cosmetic correction of only those surfaces, finishes, and coverings that are original with the home and were (a) damaged by the structural defect or (b) displaced or damaged in connection with repairs related to the structural defect.

C. MULTI-FAMILY BUILDINGS

If your home is located in a multi-family building, then these additional provisions apply:

1. Common elements warranty term. The common elements for your multi-family building will be free from structural defects for the applicable structural warranty term. Each warranty term applicable to the common elements begins on the common element effective date of warranty, and the length of each warranty term shall be the same as the warranty term stated on your Certificate of Warranty. As such, the warranty term applicable to structural defects concerning common elements may expire before the warranty term applicable to structural defects concerning your home.
2. Common element claims. Potential structural defects in common elements must be filed by the entity governing your multi-family building (e.g., a Homeowners Association). All such issues must be reported in accordance with the same procedures and timelines for the warranty described in this booklet applicable to a home, but within the warranty term that is applicable to the respective common elements. All provisions of this booklet, including without limitations the arbitration provisions agreement in Section V.E, shall apply to any common element claims.

SECTION V. IMPORTANT TERMS AND CONDITIONS THAT APPLY TO YOUR WARRANTY

3. Access. You agree—upon reasonable notice from the builder/seller, warranty insurer, or their respective representatives—to allow reasonable access to or within your home during normal business hours so repairs can be made to any adjacent space, residence, or common element. If emergency repairs are necessary and you cannot be reached within a reasonable time, you waive such notice.
4. Common element warranty limit. The aggregate warranty limit for all common elements in a multi-family building is equal to the aggregate remaining warranty limit for all dwellings in that multi-family building with an unexpired warranty term, and shall be reduced pro-rata based upon the ratio of the aggregate original sale price of all dwellings that do not have a Certificate of Warranty Coverage with an unexpired warranty term divided by the total original sales price of all dwellings in the multi-family building. All costs incurred by the builder/seller and/or the warranty insurer to repair or replace any structural defect concerning a common element will be deducted on a pro-rata basis from the remaining warranty limit for each dwelling in the multi-family building with Certificate of Warranty Coverage with an unexpired warranty term, based upon the proportion of the original sales price of each such dwelling divided by the total aggregate original sales price of all such dwellings.
5. Detached structures. If your community is served by a detached structure, then your builder/seller agrees that the detached structure shall be treated as a common element under this Section V.C, but any determination of the applicable common element effective date of warranty and pro-rating of coverage shall be exercised across all dwellings in all multi-family buildings with a valid Certificate of Warranty Coverage that are served by that detached structure.

D. EXCLUSIONS

Your builder/seller and the warranty insurer shall have no liability, obligation, or responsibility relating to, arising from, or in any way concerning any of the following items, each of which are specifically excluded under this booklet:

1. Any damage, loss, or costs incurred by you in connection with any of the following:

 - a. Your failure to give any notice required in this booklet.
 - b. Your failure to minimize or mitigate any structural defect, condition, loss, or damage.
 - c. Improper maintenance, abuse, or use of your home for non-residential purposes.

- m. War, terrorism, riot or civil commotion, vandalism, or governmental action, such as the destruction, confiscation, or seizure of covered property by any governmental or public authority.

 - q. Falling trees or other falling or moving objects, including but not limited to aircraft or vehicles.
 - r. Flooding caused by sudden water escape from pipes, vessels, or fixtures.
3. Specific to your structural warranty, any damage, loss, or costs incurred by you in connection with any of the following:
- a. Boundary walls, retaining walls or bulkheads; except to the extent that repairs to such structures are necessary to remedy a structural defect but only if such structure was originally constructed by your builder/seller.
 - b. Driveways, decks or porches, detached carports, outbuildings, fences, exterior recreational facilities, such as tennis courts or swimming pools or any other appurtenant structure or attachment to your home.
4. Appliances and manufactured items—including but not limited to heating, ventilation, and mechanical equipment or any other item covered by a manufacturer's warranty, and a deficiency in any distribution system caused by the failure of any such appliance or manufactured item. Your builder/seller hereby assigns to you any rights of the builder/seller under the manufacturer's warranties provided to the builder/seller (if any), with respect to any of the appliances and items of equipment included in your home.

E. ARBITRATION CONTRACT FOR RESOLUTION WITH BINDING ARBITRATION AND CLASS ACTION WAIVER

1. Arbitration Contract Proceedings. You, the builder/seller, the warranty insurer, and the warranty administrator (each an "Arbitration Party" and collectively the "Arbitration Parties") each hereby agree that every claim, complaint, controversy, or dispute between/among two or more Arbitration Parties that arises out of, relates to, or otherwise concerns this booklet, the Certificate of Warranty Coverage, your structural warranty, an actual or alleged structural defect, the warranty insurer or its agents or employees, the warranty administrator or its agents or employees, or the 2-10 HBW New Home Warranty Program (a "Dispute") shall exclusively be resolved by binding arbitration and not by a judge or jury. Each arbitration shall be conducted by Demars & Associates or Arbitration Resolution Services, Inc., or if neither are available or not willing to provide arbitration services, another arbitration service mutually agreed to by the Arbitration Parties that are involved in the Dispute, or, if said Arbitration Parties are unable to come to an agreement, the warranty administrator shall select the arbitration service. On your request, the warranty administrator will provide you with applicable form(s) and information for

initiating arbitration. The Arbitration Parties each agree to be bound by any and all rules published by the arbitration service provider conducting the arbitration that apply to the Dispute, except where such rules conflict with this arbitration contract, in which case this arbitration contract shall control. If you are involved in the arbitration, then the arbitration hearing shall take place in your home, unless the arbitrator agrees to an alternative location or the nature of the Dispute does not necessitate the arbitration occur in your home. All administrative fees of the arbitration service and fees of the arbitrator shall be allocated equally among the arbitrating parties. The arbitrator shall have the right to reallocate such fees in accordance with the applicable rules and as warranted under the substantive law governing the parties' controversy.

The arbitration contract provision of this Section V.E covers Disputes based upon contract, tort, consumer rights, claim practices, fraud, and other intentional torts, negligence, constitution, statute, regulation, ordinance, common law, and equity. A demand for arbitration shall be made within 1 year after the structural defect was first observed but in no event after the date when institution of legal or equitable proceedings would be barred by the applicable statute of limitations. The decision of the arbitrator shall be final and binding and may be entered as a judgment in any court of competent jurisdiction. The Arbitration Parties agree that the provisions of this Section V.E involve and concern interstate commerce and that the interpretation of this Section V.E shall be governed by the Federal Arbitration Act (9 U.S.C. § 1, et seq.), to the exclusion of any different or inconsistent federal, state, or local law, ordinance, or judicial rule. In addition to rendering an award in accordance with this booklet and the applicable law, the arbitrator shall have the sole and exclusive power to rule upon (a) his or her own jurisdiction, including without limitation with respect to the existence, scope, or validity of this arbitration provision; (b) the scope of arbitral issues; and (c) any defense based upon waiver, estoppel, or laches. All arbitral proceedings and documents issued in connection therewith, including without limitation any awards, shall be strictly confidential, and shall not be disclosed by any of the Arbitration Parties, except as may be required to enforce such award, by order of a government authority, or to obtain legal or financial advice (but solely to the extent necessary to obtain such advice). Any such disclosure shall not alter the confidentiality of the disclosed materials. This arbitration contract is self-executing.

The prevailing party in any court action brought for the enforcement or interpretation of the arbitration contract provision of this Section V.E shall be entitled to receive from the losing party a reasonable sum for its attorney fees and costs, in addition to any other relief to which it may be entitled.

2. Class Action Waiver. You hereby agree that you will only bring a Dispute in your individual capacity, and not as a plaintiff or class member in any purported class, multiple plaintiff, collective, representative, or similar proceeding (each a "Class Action"). You expressly agree to not maintain any Class Action in any forum. Instead, you agree to have each and every Dispute decided individually through arbitration. Claims cannot be consolidated in arbitration unless the Arbitrating Parties agree in writing.

SECTION VI.

WORDS WITH SPECIAL MEANING

Actual physical damage means observable or measurable damage to a designated load-bearing element as a result of bending, cracking, buckling, crushing, dislocation, or distortion of such designated load-bearing element. Damage that is not seen but is supposed, inferred, or predicted is not actual physical damage.

Associated symptoms of distress means your home has one or more of the following conditions of distress: doors or windows that stick, bind, or will not operate as intended; noticeable floor slopes; slope in cabinets, countertops, tubs, showers, or other horizontal surfaces; separation of building materials or framing members; buckling of attached finish materials.

Builder/seller means the home builder or seller listed on the Certificate of Warranty Coverage, and is the person or entity providing you with the express limited warranty described in this booklet.

Certificate of Warranty Coverage is the document issued by the warranty administrator confirming that your builder/seller took all steps required to enroll your home into the 2-10 HBW New Home Warranty Program and confirms your eligibility to receive the benefits of the express limited warranty described in this booklet during the applicable warranty term.

Common element means all parts of a condominium or common-interest building constructed by your builder/seller other than the interior of your home. Common elements may include fitness facilities; hallways; lobbies; stairways; and shared electrical, plumbing, and mechanical distribution systems.

Common element effective date of warranty means the earlier of the date a certificate of occupancy is issued for the multi-family building or the date a dwelling unit in the building was first occupied.

Commercial space means any unit constructed by your builder/seller within a multi-family building that is used primarily for a non-residential purpose.

Detached structure is a building constructed by your builder/seller that is not attached to the multi-family building—such as club houses, daycares, fitness centers, or parking structures—but is still owned in common by the multi-family building association or unit owners and is designated for common use by the owners of the dwellings within the multi-family building.

Designated load-bearing elements are load-bearing walls and partitions, footings and foundation systems, beams, girders, lintels, masonry arches, columns, roof-framing systems, and floor-framing systems.

Effective date of warranty means the date the express limited warranty described in this booklet goes into effect as indicated on the Certificate of Warranty Coverage.

Home means the dwelling unit and garage (if any) or the commercial

space (if any) constructed by your builder/seller and located at the address shown on the Certificate of Warranty Coverage.

Multi-family building is a building constructed by your builder/seller in a common-interest community that may consist of dwelling units, shared parking spaces, commercial space, and common elements.

Reasonable time is the time frame that is fairly necessary to do whatever is required to be done as soon as circumstances permit. Circumstances include but are not limited to weather, material availability, nature of deficiency, and builder/seller's service policies.

Soil movement means subsidence or expansion of soil caused by shrinkage, swelling, or consolidation.

Structural defect is defined as actual physical damage to one or more designated load-bearing elements of the home caused by failure of such load-bearing elements that affects their load-bearing functions to the extent your home becomes unsafe, unsanitary, or otherwise unlivable.

Unsafe means actual physical damage that results in a structural hazard wherein one or more designated load-bearing elements can no longer safely carry design loads.

Unsanitary means actual physical damage that results in your home being unfit for occupancy due to the intrusion of harmful environmental elements that pose a significant threat of bodily injury to an average person.

Unlivable means actual physical damage with one or more associated symptoms of distress caused by post-construction movement resulting in either:

- Deflection greater than 1 inch in 30 feet when measured over the entire length, width, or diagonal of your home. *Deflection* is the vertical displacement of the foundation or floor-framing system due to bending either upward or downward. It is calculated as the vertical distance between a point on the deflected surface and a straight line that connects the end points. The minimum edge-to-edge distance used for determining deflection is 20 feet; or
- Tilt exceeding 1% when measured over the entire length, width, or diagonal of your home. *Tilt* is a slope in intended level foundation and floor surfaces. It is calculated as the difference in elevation of opposite end points of a horizontal span divided by the distance between the points. The minimum edge-to-edge distance used for determining tilt is 20 feet. Unless there is an authoritative as-built elevation survey of your home, the calculation of tilt will allow for an additional 1/2 inch of tilt.
- Unless there is an authoritative as-built elevation survey of your home, the calculation of deflection and tilt will allow for an additional 1/2 inch of deflection or tilt in the habitable areas of your home. Habitable areas include spaces for living, sleeping, eating, or cooking, but do not include garages.

Warranty or collectively **Warranties** means the express limited structural warranty set forth in this booklet provided to you by the builder/seller.

Warranty administrator or **2-10 HBW** means Home Buyers Warranty Corporation. The warranty administrator is the creator and administrator of the 2-10 HBW New Home Warranty Program and is available to answer any questions you may have about the express limited warranty provided to you by your builder/seller under this booklet.

Warranty insurer provides your builder/seller with insurance coverage for its obligations under the structural warranty. Your builder/seller's warranty insurer is identified on the Certificate of Warranty Coverage.

Warranty limit is the dollar amount stated on your Certificate of Warranty Coverage as the warranty limit.

Warranty term means the time frame during which the structural warranty is effective. The warranty term starts on the effective date of warranty or common-element effective date of warranty. The duration of the warranty term for the structural warranty is indicated on your Certificate of Warranty Coverage.

"You," "your," and similar words mean the person or persons who are the legal owners of the home covered by the express limited warranty described in this booklet.

SECTION VII.

YOUR LEGAL RIGHTS AND REMEDIES

A. GENERAL LEGAL PROVISIONS: This booklet and the Certificate of Warranty Coverage fully and exclusively define the warranty terms, limitations, rights, and obligations with respect to each and every structural defect. The language in all parts of this booklet shall be construed simply, as a whole, and in accordance with its fair meaning and, in the event of an ambiguity or dispute, shall not be construed for or against you, the builder/seller, the warranty insurer, or the warranty administrator. The captions of the articles, sections, and subsections are inserted solely for convenience and shall not be treated or construed as part of this booklet.
