

## **Come see what is new about Grundfos Pumps.**

Hi , I am sure that you are familiar with Grundfos Vertical In Line Multistage Centrifugal Pumps, if not, Grundfos is one of the largest pump companies in the world. Grundfos is distributed in Western Canada by Arndt Motor and Pump. Arndt Motor and Pump has the largest inventory of Grundfos pumps and parts in Western Canada and has the service team to handle any type of service. What I wanted to do today, was to let you know what is new at Grundfos and how it can help you with your pumping needs.

Grundfos CR Series of pumps

## Grundfos CRN MagDrive Pump

- Leak-Free pumps for hazardous media
- Rated Power up to 22 kW
- A magnetic coupling uses the force of magnetism to transmit power from the drive to the shaft

MagDrive Brochure

## Grundfos CR Cool-Top Pump

- The Grundfos CR Pump is specially designed to handle liquids from 120 to 180 Celsius
- Special air cooled shaft seal chamber
- Long lifespan of the shaft seal
- Available with different elastomers

Grundfos Cool Top

#### The benefits of the CRE

The CRE pump's integrated frequency drive provides a wide range of unique benefits:

- Energy consumption reduced by up to half compared to fixed speed pumps
- Remote control/fieldbus monitoring and data collection
- Reduced system wear
- Integrated sensor available
- Easy installation and operation — settings and internal connections done at factory
- Full range of pumps for all applications
- Superior user comfort

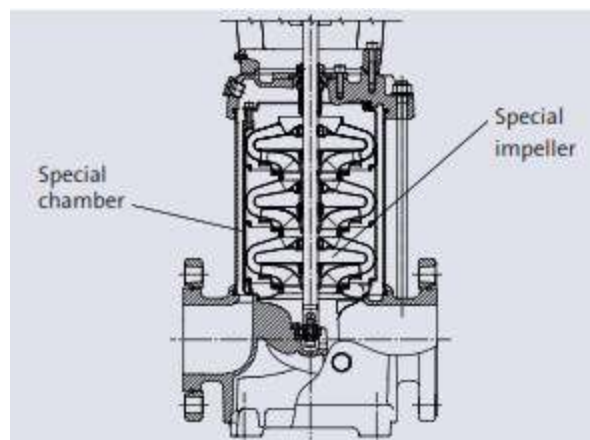

## CRE: A smart way to save

*A CRE from Grundfos is a CR pump with an integrated variable frequency drive that allows the pump to match output to demand for optimal operating efficiency.*

## Efficient CR Pump and variable speed motor are a perfect match

- Energy Consumption highly reduced
- Remote control monitoring and data collection
- Reduced system wear
- Easy installation and operation

CRE Brochure

## Grundfos Low NPSH Pump

- Specially designed to eliminate the risk of cavitation
- Ensure a stable and reliable operation

- Compact system design
- Longer lifespan

Low NPSH CR Pump

## Still have questions?

I am happy to help with any questions you might have, just call Mike Keeley on cell at 403-333-7405. Check out more information at the Arndt Motor and Pump website.
