Multifocal Retinopathy 1	WT/WT	Normal (Clear)	June 22, 2022
Progressive Retinal Atrophy, Progressive Rod-Cone Degeneration	WT/WT	Normal (Clear)	June 22, 2022

A fee of \$ 2000.00 in US funds to be paid at or before time of breeding, and/or the following conditions:

No additional terms apply.

If a puppy is received back by the stud dog owner in lieu of a stud fee, stud owner will be added as litter co-breeder and pick puppy shall carry stud owner's kennel name only unless other terms are agreed upon.

Add the following terms:

The owner/lessee of the bitch agrees:

- ☐ To provide a copy of the bitch's pedigree, registration papers, color photo, CERF (or eye check cleared by a canine ophthalmologist) dated within 1 year, OFA certification (Good or Excellent), and a negative brucellosis test (within 14 days) prior to breeding. If bitch does not have a current brucellosis test upon arrival, bitch owner hereby authorizes stud dog owner to have above-named bitch tested for brucellosis and agrees to pay all costs associated with such test. Bitch must be current on vaccines and free of parasites.
- ☐ To keep the bitch confined and assure she does not breed with any other dogs.
- ☐ To notify Stud Dog Owner within 48 hours after whelping, or within 1 week of the due date if no litter is whelped.
- ☐ To cull puppies in accordance with the Breed Standard with regard to excess white on a merle-to-merle breeding.
- ☐ To have all tails docked, if not natural bob, and at least the rear dewclaws removed (if present) before the age of 4 days, except when selling to countries with a tail docking ban.
- ☐ Not to sell any puppies from this breeding through a commercial dog center, nor to anyone intending to breed for commercial resale.
- ☐ To sell pet quality puppies as "Non-breeding" with the relevant box checked on their registration papers.
- ☐ To rescue or take back (should the need arise) any puppies from this breeding.
- ☐ To notify Stud Dog Owner of any puppies from this breeding that complete Championships, Obedience, Working, or other titles.
- ☐ To assume responsibility for all costs incurred for transportation, medical expenses, boarding fees (see below) and other expenses associated with this breeding. If the bitch requires medical attention and the stud owner cannot contact the bitch's owner, permission is hereby granted for treatment by stud owner's vet or any available vet as needed.
- ☐ To provide Stud Dog Owner with pictures of litter prior to signature on registration papers.
- ☐ To have all puppies eyes examined by a licensed ophthalmologist between the ages of 7-9 weeks. Puppies with an eye problem must be placed as pets on a spay/neuter contract.

- ☐ That nonpayment of stud fee (or puppy back - as determined above) justifies stud owner's refusal to sign litter registration papers.
- ☐ If the bitch named above is to stay at stud owner's facilities, food must be provided, and board may be collected at a rate of \$10 for each day of the bitch's stay beyond 7 days.

The owner of the stud dog agrees:

- ☐ To provide a copy of the stud dog's pedigree, registration papers, CERF (or eyes cleared by a canine ophthalmologist) dated within a year, and OFA certification.
- ☐ To keep the bitch confined and assure she is not mated with any other dog while under the care of the stud dog owner. If bitch becomes pregnant by another stud before or after mating with the stud in this contract while under the care of bitch owner or agent, stud owner will retain stud payment, contract will be considered fulfilled, and a rebreed will be charged 50% of normal stud fee at the discretion of stud owner.
- ☐ To sign registration papers upon fulfillment of the above agreement.
- ☐ To provide ONE free return service if no pregnancy occurs, or if the litter does not consist of 2 or more live, saleable puppies, after culling (only for reasons stated above). All expenses associated with this breeding will be assumed by bitch owner. This return service will be given to the bitch noted in this contract, within 12 months of whelping date. Should said bitch die or become unable to conceive or carry a litter, stud owner is no longer obligated to offer a free return service.

Two living puppies at 5 days of age shall constitute a litter.

There will be no refunds of the stud fee in part or in full.

Stud Dog Owner or Agent will not be held responsible for disease, accident, loss, injury, or death to the bitch or to any other person or animal while on the premises or in transit. Stud Owner reserves the right to refuse service for any reason.

Additional terms and conditions apply when using Frozen, Fresh Chilled, or Fresh semen.

By signing this contract both parties agree to the conditions set forth and are bound by its content.

Contract should be signed and returned to book a stud service. Date bitch is expected in season: _____
