Printing 7-10 business days after approval & payment

Twill 10-15 business days after approval & payment

Step 6

Rock your Jerseys

We assure you, your team will look SEW KOOL!

Printing vs Pro Twill

Printing

The Direct To Film (DTF) printing is excellent for printing colorful and detailed logos. It is cheaper than pro twill so great for a team on a budget. DTF prints are smooth, which ensures longevity. The prints are resistant to cracking and can handle heavy use and cold to lukewarm washes without fading color.

Pro Twill

All numbers, names and logos are cut to exact team specifications out of Pro-Tackle-Twill and hand stitched. Have a look at the sample images below, each layer of Pro-Twill is stitched by hand, directly onto the jersey to ensure a lifetime of use. Your team will feel like they are a NHL team with a pro twill jersey!

Style 1 H6000
