

Hula Consulting™

Regulatory Compliance & Certification

We help your business sail through the sea of regulatory alphabet soup. HACCP, OSHA, GMP, SSOP, USDA, FSMA, FSVP, PCQI, HARPC, FD/IA, etc. We also support certification efforts in organic, kosher, halal, fair trade, vegan, non-gmo, and others. In addition, we offer full label review and layout support to meet FDA food label laws. With updates in compliance laws, we'll handle the details for you. Finally, we offer third party food safety certification for GMP and HACCP facilities.

Blending & Product Sourcing

We can help you match or create a perfect tea, coffee and spice product for your line and assist you in sourcing ingredients and contract manufacturers to package your quality branded products in multiple formats (loose, tea bag, single cup, powder, RTD, CBD, probiotic, functional, etc.) to suit your customers needs.
