10 Benefits of UPVC

- 1 Custom made :**
shapes, surfaces, and colours of windows and doors are made to suit individual preferences
- 2 Timber look and feel :**
texture and colours that look like timber are available
- 3 Durable :**
doesn't rot, fade, and is resistant to corrosion (including salt corrosion)
- 4 High security :**
multi-point locks and multi-chambered uPVC reinforced with galvanized steel provide additional safety
- 5 Low maintenance :**
Quick and easy to clean, no further costs
- 6 Fire safety :**
uPVC is fire resistant and our products are BAL-40 approved
- 7 Weather proof :**
welded construction of quality seals and glass will keep your home comfortable – through the hottest summers and coldest winters
- 8 Environmentally friendly :**
can be recycled up to 10 times or put into new products
- 9 Cuts down noise:**
the glass can reduce it as much as 70% noise Solution
- 10 Energy efficient :**
will save 30-40% in energy costs – great for you and the environment.

Product Features:

TERMITE PROOF

UPVC Being Synthetic Product, there is Absolutely no Necessity to Spend on Periodical Termite Control Procedures.

NOISE REDUCTION

UPVC Windows and Doors are Double Glazed which Provides Excellent External Noise Reduction Properties.

WATER RESISTANT

UPVC Profiles are Equipped with Water Slots to Ensure Proper Drainage Hence Windows & Doors will Completely Isolate Rain water outside of your House.

ENVIRONMENT FRIENDLY

Since UPVC is an Ideal Recyclable Material, they can be Successfully Converted to other useful Products thereby Creating sustainable Future.

DURABLE

UPVC Windows do not warp, Twist or split, thereby Making the material Extremely long Lasting.

EASY MAINTAINENCE

UPVC Profile Doesn't Corrode, is anti aging, doesn't discolor. These profiles are Completely Maintenance Free.
