

My first day meeting John and Lois was May 12, 2021. I was introduced to them through a mutual friend, Florence Knechtl (Bay Pony Inn). We hit it off right away. As I was leaving John yelled for me to stop so he could take a picture.

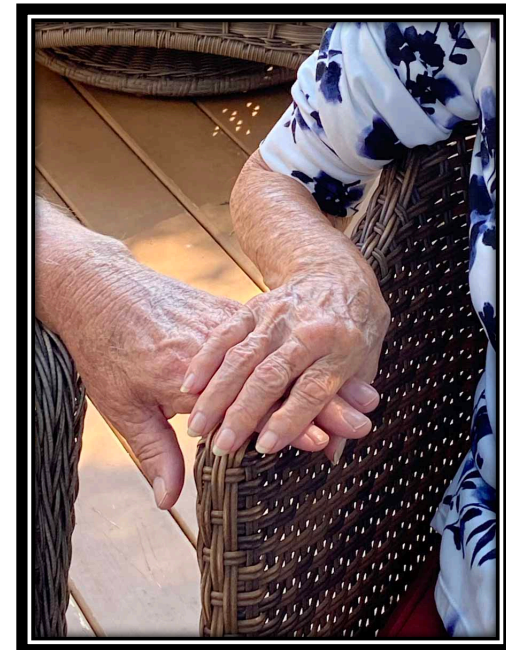

We spent A LOT of time on the back deck because of the peacefulness the "blue, blue skies and the puffy clouds" brought to us.

This sign was the first project I painted for John and Lois's special friends, Melissa & Bob Beck.

We enjoyed being on the deck in any kind of weather!

John was always keeping busy!

We were making room for the plow.
