

PROJECT : A 3BHK HOME LOOK & FEEL

Project Brief:

Location: Atmosphere O2 building, Mulund.

Client: A family of three—father, son, and daughter.

Background: The father, a retired IIT professor, wants a home that feels warm and sophisticated, with a focus on a premium study space and ample cupboard storage. The son, who enjoys gaming and Japanese design, needs an interior that combines these elements and includes a functional gaming desk. The daughter is open to various design styles, so we suggest a minimalistic contemporary approach for her space.

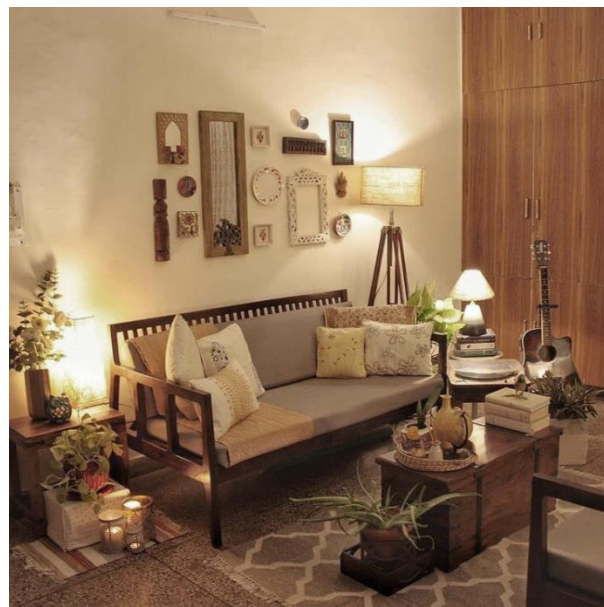

Requirements:

Father's Bedroom: Warm, inviting design with an emphasis on a premium study area and storage.

Son's Bedroom : Integration of gaming features and Japanese design elements, including a dedicated gaming desk.

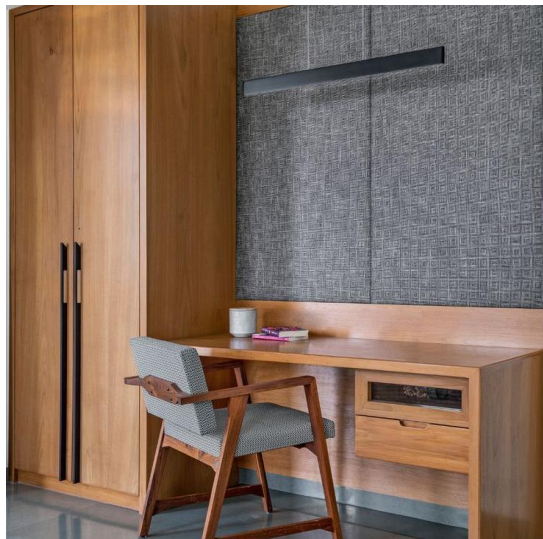

Daughter's Bedroom : Minimalistic contemporary style.

Living room and Dining: Reflect the father's warm, inviting vibe, considering that the children will be away for education.

LIVING ROOM & DINING
